

Xerox® Toner Estimation Tool

When you need to know more about your colour documents.

Now it's easier to estimate your job costs – before you even print a page.

You can get job-level consumables information that can help you to estimate costs and create quotes using the Xerox® Toner Estimation tool. Designed by Xerox specifically for use with the Xerox® 490/980™ Colour Continuous Feed printing system, this flexible tool estimates area coverage and toner usage from a PDF of your application.

Quick calculations make print price estimating easy

So easy, you'll be crunching the right numbers in no time

You can see how easy it is to calculate projected toner usage for your black and white or full-colour applications with our Toner Estimation Tool.

You can quickly and easily upload PDF files through your web browser for assessment. Your file will be processed using a powerful, high-speed processor that emulates the Xerox 490/980™ Colour CF Controller.

You can select from the same three process modes you have at the Xerox 490/980 Colour CF Controller: Device Colour, Ink Simulation or B/W Mode.

The online estimation only takes minutes and the resulting output can be downloaded to your PC for use.

You can view your results in a format that is convenient for you. Results are generated in .txt, tab delimited files that can easily be imported into your own spreadsheet programme or other application.

Take control of every page you print

Use the toner consumption information provided by the Toner Estimation Tool to determine what it's likely to cost you to run a job. Knowing how much toner is on the page before you print it means you can optimise toner consumption predictably.

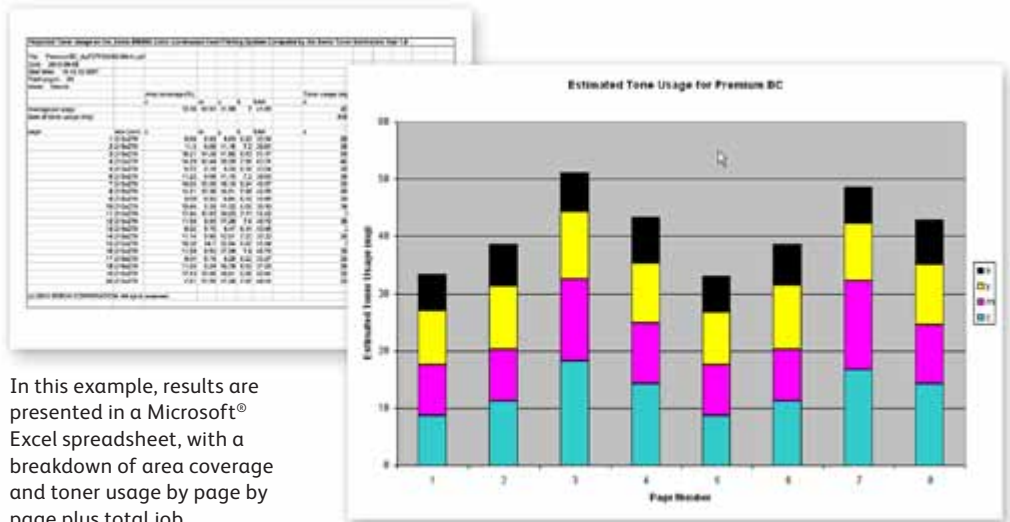

Your Data is Safe and Secure.

To keep your sensitive information safe and secure, the Xerox 490/980 Colour CF Toner Estimation Tool reads your data, processes it, then deletes it. No copies are retained and only the analysis results are available for download.

Specifications

- Upload PDF files up to 50 MB
- PDF must be compatible with PDF version 1.7 Extension Level 3 (Adobe Acrobat 9)
- Web browser Version(s) supported:
 - Microsoft Internet Explorer® 7.0 and above
- Mozilla® Firefox® 3.5 and above
- Google Chrome™ 4.0 and above
- Opera™ 10.0 and above
- Safari® 4.0.5 and above

In this example, results are presented in a Microsoft® Excel spreadsheet, with a breakdown of area coverage and toner usage by page by page plus total job.
