Xerox 8265 & 8290
Wide Format Colour Printers

Specifications

Product Names	8290	8265
Technology	Drop-on-demand Piezo Inkjet Technology	
Maximum Media Widths	89.76"/2280mm	65.07"/1653mm
Maximum Print Widths	88.58"/2250mm	64.68"/1643mm
Ink-Colour / Consumption	CMYK/CMYKcLm	CMYK/CMYKcLm
Multiple Print Modes / Resolutions	220 ml / ink bottle	
	High Speed: 360 x 360 dpi	
	Production: 720 x 720 dpi	
Roll Media Core Diameter	High Quality: 1440 x 1440 dpi	
	3 inch diameter	3 inch diameter
Motorised Take-up System	Roll-up: Standard	Roll-up: Standard
Power Supply	AC 100 – 120 V / AC 220 – 240 V (Auto switching)	
Power Consumption	1100 VA	800 VA
	100 VA in stand-by mode	
Working Environment	Temperature: 16 – 25 °C	
	Humidity: 40 – 60 % (no condensation)	
Safety Certification	CE, UL, CUL, CCIB, KTL, EMI:CE FCC Class A VCCI Class A	
External Dimensions	3700 (W) x 720 (D) x 1220 (H) mm	3070 (W) x 720 (D) x 1220 (H) mm
Weight	295 kg	265 kg
Print Speed	2xCMYK	CMYKcLm
Top Speed (360 x 360)	6.0 – 42.0	3.0 – 22.0
Production Speeds (360 x 720)	5.8 – 22.8	2.9 – 11.5
High Quality (720 x 720)	3.0 – 13.0	1.5 – 6.5

Xerox 8265 & 8290

Wide Format Colour Printers

Your nearest Xerox Wide Format representative is:

- **Wide format colour eco solvent printer**
- **High speed productivity**
- **Designed for unattended production environments**
- **Suitable for indoor and outdoor applications**
- **Permanent piezo electric print heads**

Versatile Eco Solvent Wide Format Production Printer

The Xerox Wide Format 8265 & 8290 are highly flexible wide format printing solutions that have been specifically designed to deliver high speed printing and image quality for both indoor and outdoor applications.

Quality

The Xerox 8265 & 8290 family of printers uses the latest dynamic variable dot piezo electric ink jet head technology, allowing smaller ink droplet size which improves image quality. The printer family is capable of printing in 360 and 720 DPI resolutions, giving you the flexibility of speed and high image quality

The combination of the ink jet technology and the eco solvent inks allows a greater colour gamut usually only seen on water based ink jets, giving you the ability to produce indoor quality graphics with the durability for outdoor applications.

The Xerox 8265 & 8290 has a wide range of supported media, including White glossy photobased paper, White glossy vinyl / Monomeric PVC, White glossy vinyl / Polymeric PVC, PVC Scrim Banner, Cast PVC, Polyethylene Banner, Tyvek and Self Adhesive Eco Film (polyolefine-based).

Durability

For long-term outdoor use the Xerox 8265 & 8290 employs non aggressive eco solvent inks. These improve the colour gamut over traditional solvent inks and have the added advantage of not requiring special ventilation or air purification units. The eco solvent inks are waterproof, high abrasion resistant and UV stable. Printed images can last outdoors for up to three years, without the need of lamination or for any form of protection. All printers are supplied with a media take up systems to ensure the output is not damaged in an unattended environment.

The machines are available in two widths the 8265 is a 65" wide machine and the 8290 is a 90" wide machine. Both the 8265 and 8290 can be loaded with, either four colour, C M Y K or six colour C M Y K Lc Lm ink sets.

Wide range of applications

The Xerox 8265 & 8290 range of printers allow you to produce any type of outdoor print job. The range of applications include: point of purchase displays, banners, signage, exhibition graphics, long term backlit displays, vehicle graphics, street furniture, wall murals, stage graphics, flags and corporate graphics.

All Xerox 8200 series printers are provided with Caldera RIP software, allowing you to easily integrate the Xerox 8200 series printer into your existing workflow. The Caldera software provides you with a powerful but easy to use software designed for optimum performance.

Support

Xerox has the world's most comprehensive range of product and people based technical document services for reproduction distribution, printing and plotting, maintenance and management to improve business productivity through large format document management.

We manage a valuable asset, technical information, to help business achieve more efficient work processes, reduce time to market and increase productivity.

Xerox has unparalleled worldwide services and support, plus the resources and depth to think globally and act locally.

Your guarantee of satisfaction

Complete confidence in the quality and reliability of its products enables Xerox to make a unique offer.

A total satisfaction guarantee

If you are not fully satisfied with your Xerox equipment, Xerox will replace it with an identical or comparable model, upon request – at no cost to you.

This guarantee is valid for 3 years on equipment covered by a Xerox full service contract.
