

# Xerox Wide Format Docuwide Qcontrol Powerful queue management control

Qcontrol is a powerful and easy to use application that adds a new dynamic to the productivity and versatility of Xerox Wide Format devices.

Qcontrol complements the processing power of the Accxes controller whilst satisfying the demands of a busy print environment with the simple convenience obtained from queue management.

Quite simply, Qcontrol provides an interface to view, control and route print jobs. The print queue can be used in manual or automatic mode, and jobs can be stored for later reprints.

Without the need of a dedicated PC<sup>1</sup>, Qcontrol is implemented with the minimum of fuss. Its simple operation means benefits are quickly realised.

## Key Features

- Job Editor – Integrated job editor for drag and drop creation and modification of print jobs, and viewing of all supported document formats
- Support for multiple incoming network and folder based queues
- Accxes Client Tools support – Clients can print using Accxes client tools direct into the Qcontrol queue
- Automatic/Manual queue control – Jobs can be automatically printed on a first come first printed basis, manually nominated or depending upon the parameters printed or held
- Accxes controller support – Direct printing support for Accxes controllers
- Multiple device support
- Load balancing – Split the queue of jobs over multiple devices
- Remote queue management – Using Accxes client tools
- Rule based printing – Route jobs depending upon the printer's capabilities
- Job interrupt – Interrupt print jobs for high priority work
- Client postscript driver – Postscript printer driver for Windows and Apple Mac client workstations
- Third party printer support – Printing to any device with a Windows driver
- Automatic colour job detection – Route colour documents to colour capable printers
- Job accounting – Keep track of all work and recharge departments or external clients
- File format conversion – Conversion of document format for archive or distribution
- Electronic output – Automated electronic distribution
- 7142 Support – Supports printing to the Xerox 7142 colour CAD printer

<sup>1</sup> While a dedicated PC is not required, the minimum specifications must be met, as detailed in the System Requirements.

# Xerox Docuwide Qcontrol Wide Format Solution Specifications

## System Requirements

- Pentium 4 1.2 GHz or better
- Windows 2000, XP or Vista with latest service packs
- 200MB of available disk space for installation
- 2GB of available disk space for operation
- 1GB of RAM
- CD-ROM Drive for installation
- 1024 by 768 or greater resolution display
- Configured network interface

Note: Memory requirements of other applications on the host PC must be taken into account when considering using Qcontrol.
