	The changes are as under :				
	1. The Oracle Part Codes have changed.				
	2. From 32ppm to 55 ppm, there would be no "CPS" versions. You have to bundle a scan kit with the "CP" version for scanning requirements				
	3. There are no changes in the 5665 & 5675 codes, but these would be available only in the "CPS" Consiguration.				
4. It is mandatory to bundle the 2K office finisher with the 5665 & 5675, as OCT would not be available for these.
