

## **Xerox Product Response to CERT<sup>®</sup> Vulnerability Note VU#111673: SGI IRIX "xfsdump" creates quota information files insecurely**

The primary audience for this document is Xerox analysts and customers who want information regarding how Xerox products respond to [CERT<sup>®</sup> Vulnerability Note VU# 111673](#), issued by CERT<sup>®</sup> on April 10<sup>th</sup>, 2003. The following sections provide excerpts from the CERT<sup>®</sup> advisory and the corresponding Xerox response.

### **Background**

The CERT<sup>®</sup> Coordination Center (CERT/CC) is a center of Internet security expertise at the [Software Engineering Institute](#), a federally funded research and development center operated by [Carnegie Mellon University](#). CERT<sup>®</sup> studies Internet security vulnerabilities, handles computer security incidents, publishes security alerts, researches long-term changes in networked systems, and develops information and training to help you improve security at your site.

[CERT<sup>®</sup> Vulnerability Note VU# 111673](#) describes a vulnerability that exists in xfsdump on SGI IRIX. Exploitation of this vulnerability may allow a local attacker to gain root privileges.

### **Xerox Product Response**

The table below lists various products and their positions with respect to [CERT<sup>®</sup> Vulnerability Note VU# 111673](#). This document will be updated with additional product information as it becomes available.

<b>Product</b>	<b>Response to <a href="#">CERT<sup>®</sup> Vulnerability VU# 111673</a></b>
<b>CentreWare Network Scanning Services</b>	CentreWare Network Scanning Services is not IRIX based and is not, therefore, affected by this vulnerability.
<b>CentreWare Network Services</b>	CentreWare Network Services is not IRIX based and is not, therefore, affected by this vulnerability.
<b>DigiPath</b>	DigiPath is not affected by this vulnerability.
<b>DocuColor 12 with EFI Splash Front End</b>	DocuColor 12 with EFI Splash Front End is not shipped with xfsdump and is not, therefore, affected by this vulnerability.
<b>DocuColor 1632/2240</b>	DocuColor 1632/2240 products are not IRIX based and are not, therefore, affected by this vulnerability.
<b>DocuColor 3535 with EFI Network Controller</b>	DocuColor 3535 with EFI Network Controller does not use XFS and is not, therefore, affected by this vulnerability.
<b>DocuColor with CREO front-ends:</b> <ul style="list-style-type: none"> <li>• <b>DocuColor 2060/2045 with CSX2000</b></li> <li>• <b>DocuColor 3535 with CXP3535</b></li> <li>• <b>DocuColor 6060/2060 with CXP6000</b></li> </ul>	DocuColor products with CREO front-ends are not IRIX based and are not, therefore, affected by this vulnerability.

Product	Response to <a href="#">CERT® Vulnerability VU# 111673</a>
<b>DocuColor Windows NT based products with EFI front-ends:</b> <ul style="list-style-type: none"> <li>• DocuColor 12 with X12</li> <li>• DocuColor 12 with EX12</li> <li>• DocuColor 12 with XP12</li> <li>• DocuColor 2045/2060 with EX2000</li> <li>• DocuColor 2045/2060 with EX2000d</li> <li>• DocuColor 2045/2060 with EX2000v</li> <li>• DocuColor 6060 with EXP6000</li> </ul>	DocuColor Windows NT based products with EFI front-ends are not IRIX based and are not, therefore, affected by this vulnerability.
<b>DocuColor Windows XPe based products with EFI front-ends:</b> <ul style="list-style-type: none"> <li>• DocuColor 3535 with EX3535</li> </ul>	DocuColor Windows XPe based products with EFI front-ends are Microsoft Windows based and are not, therefore, affected by this vulnerability.
<b>Document Centre products (200, 300, 400 and 500 Series)</b>	Document Centre products are not IRIX based and are not, therefore, affected by this vulnerability.
<b>Document Centre Xerox WIA Driver for Microsoft® Windows XP®</b>	Document Centre Xerox WIA Driver for Microsoft® Windows XP® is not IRIX based and is not, therefore, affected by this vulnerability.
<b>DocuPrint NPS/IPS Series products</b>	DocuPrint NPS/IPS Series products are not IRIX based and are not, therefore, affected by this vulnerability.
<b>DocuPrint N Series products</b>	DocuPrint N Series products do not use xfsdump and are not, therefore, affected by this vulnerability.
<b>FlowPort</b>	FlowPort is not IRIX based and is not, therefore, affected by this vulnerability.
<b>iGen3 Creo Spire Color Controller</b>	The iGen3 Creo Spire Color Controller is not IRIX based and is not, therefore, affected by this vulnerability.
<b>Phaser products</b>	Phaser products do not use xfsdump and are not, therefore, affected by this vulnerability.

<b>Product</b>	<b>Response to <a href="#">CERT® Vulnerability VU# 111673</a></b>
<b>WorkCentre M35</b> <b>WorkCentre M45</b> <b>WorkCentre M55</b> <b>WorkCentre Pro 35</b> <b>WorkCentre Pro 45</b> <b>WorkCentre Pro 55</b> <b>WorkCentre Pro 65</b> <b>WorkCentre Pro 75</b> <b>WorkCentre Pro 90</b> <b>WorkCentre Pro 32 Color</b> <b>WorkCentre Pro 40 Color</b>	These WorkCentre products are not IRIX based and are not, therefore, affected by this vulnerability.

**Contact**
