

Fax	
Operation	Plain Paper Fax
Print Technology	Laser beam Printer Electro-Xerographic, Microfine Toner
Compatibility	ITU-T Group 3
Data Compression	JBIG, MMR, MR, MH
Modem Speed	Pro 575: Up to 36.6 kbps (V.34) with auto fallback Pro 555: Up to 14.4 kbps (V.17) with auto fallback
Handshaking Protocol	ITU-T compliant (T.30) with Xerox Accelerated Protocol
Transmission Speed	Pro 575: 3 seconds per page Pro 555: 6 seconds per page
Security	Confidential send and receive, department codes and ITU T subaddressing
Paper Size and Media	Letter/Legal/A4
Transmit Resolution	406 x 391 dpi, 300 x 300 dpi, 203 x 391 dpi Superfine, 203 x 195 dpi Fine, 203 x 98 dpi Standard
Receive Resolution	406 x 392 dpi
Halftone	64 levels, Superfine, Fine
Memory	Pro 575: 266 pages (3.2 Mb) Pro 555: 100 pages (1.2 MB)
Dialing	Pro 575: 150 speed dials; 38 one touch; 50 groups Pro 555: 100 speed dials; 19 one touch; 25 groups
Fast Scan	3 seconds per page
Automatic Document Feeder	Up to 30 sheets of 20 lb letter/A4 paper
Paper Tray Capacity	250 Sheets
Bypass Tray Capacity	One Sheet, Envelopes, transparencies, labels
Key Reports	Activity Report, Confirmation Report, Settings Report, Pending Jobs Report, Department Code Report, Mailbox Report, Phonebook Report
Convenience	Auto supplies ordering, remote diagnostics, auto reduction, monitor speaker, auto redial, alternative telephone numbers, optional handset (USA only)
Ease of Use	2 line, 40 character LCD display, direct feature access, ControlCentre software, front loading paper cassette
Mailboxes	Pro 575: 50 ITU-T Mailboxes Pro 555: 10 ITU-T Mailboxes
Maximum Document Length	Unlimited
Maximum Document Width	216 mm
Maximum Scan Width	212 mm
Software	ControlCentre for programming machine settings and phonebooks from a PC; TextBridge Pro 9.0 to provide a quality scanning solution; DocuLAN Fax Personal Edition for faxing from your PC

Printer	
Print Technology	Laser beam Printer Electro-Xerographic, Microfine Toner
Output Print Resolution	600 x 600 dpi PC printing
Print Engine Speed	8 Pages Per Minute
Hardware Connectivity	Bi-directional parallel port
Print Description Language	Windows Enhanced GDI
Printer Cable	6' IEEE 1284 compliant parallel cable
Supplies Yield Rates	Toner: 6,900 pages @ 4% document coverage Drum: 20,000 pages

Copier	
Resolution	Up to 406 x 392 dpi
Multiple Copies	1-99 of multiple page original
Reduction	100%, 86%, 75%, 50% or autofit (user selectable)
Collation	Collate or Uncollate (user selectable)
Halftone	Error - diffusion 64 levels, Superfine, Fine
Contrast Control	Normal, lighten, darken

Scanner	
Resolution	406x392 dpi in Superfine
Scanning Software	TWAIN Driver, TextBridge Pro 9.0

General	
Power	530 Watts max, Power save mode on/off (user selectable), Energy star compliant
Size - with trays	430 mm wide, 719 mm deep, 463 mm high
Size - carton	557 mm wide, 554 mm deep, 593 mm high
Weight	10.5 kg basic machine/19.5 kg packaged with accessories
Date Register	Leap year compliant, Year 2000 compliant

Options	
Paper Trays	500 sheet paper cassette
Telephone Handset	Hearing aid compatible (American markets only)

Minimum System Requirements for PC Connection	
PC	Pentium with ECP or Standard Parallel port. IEEE 1284/ECP mode recommended
Operating System	Microsoft Windows 95, 98 or NT 4.0
PC Memory	TBD
Hard Disk Storage	7 MB for Printer driver and ControlCentre 120 MB for documentation 24 MB for DocuLAN Fax Personal Edition 20 kB per stored fax page 45 MB for TextBridge

WorkCentre

PRO 555 PRO 575

5-in-1 versatility in a compact business fax system. Reliable and affordable. Easy to set up, use, and maintain.

Expressly designed for today's small workgroup and personal office, WorkCentre Pro 555/575 multifunction fax systems combine efficient, high-quality faxing with fast, high-resolution printing and copying, quick scanning (with OCR), and integrated PC faxing too.

Compact and economical, WorkCentre Pro 555/575 systems nevertheless feature the most advanced technologies in their class for performance, reliability, and ease of use. Built-in JBIG compression assures you of fast, economical, high-quality fax transmissions. Their simple, intuitive controls, combined with powerful ControlCentre software, make the Pro 555/575 fax systems easy to use and manage.

Big-office performance.

Whether faxing, printing, or copying, WorkCentre Pro 555/575 systems deliver clear, detailed pages without keeping anyone waiting. Whether you choose the Pro 555 with a 14.4 Kbps modem or the Pro 575 with a "fast standard" V.34 33.6 Kbps modem, your outgoing faxes are transmitted efficiently and accurately.

Print speed for both systems is up to 8 pages per minute at true 600x600 dpi resolution, with 64 half-tone levels for accurately reproduced graphics. Pro 555/575 systems scan and copy at 400x400 dpi, with 3-second-per-page fast scanning. When copying, you can select 1-99 copies of multipage originals at 100% or any of four reduction modes: 86%, 75%, 50% or autofit of legal to letter-size.

Abundant built-in memory—up to 100 pages on the Pro 555 and up to 226 pages on the Pro 575—keeps the work flowing, whether you're sending or receiving faxes, printing, or copying. Together with a 30-page automatic document feeder, your system's high-capacity, easy-loading 250-sheet paper cassette (or available 500-sheet cassette) allows you to fax, copy, or print multipage documents unattended—without having to reload the paper cassette frequently.

5-in-1 versatility for your multi-tasking workstyle.

Multifunctional from the moment it's set up, WorkCentre Pro 555/575 systems boost your office productivity even beyond fax-print-copy-scan-PC fax.

TWAIN scanning, with included TextBridge OCR software, lets you scan documents to a PC connected to your Pro 555/575, then turn them into text files if desired. Included DocuLAN Fax PC faxing software allows you to send and receive faxes directly from that PC too. As multitask-oriented as you are, your Pro 555/575 can receive and print faxes and scan documents, or make copies (up to 99 at a time) and send faxes, all at the same time.

Easy to use and manage. No training required.

WorkCentre Pro 555/575 systems are easy for everyone to use, with straightforward controls, including up to 38 one-touch keys for common functions and up to 188 speed dials and 50 group dials.

But what really sets the Pro 555/575 systems apart from any other systems in their class is Xerox ControlCentre software. This simple-to-use software lets you set up your system, enter phonebook data, monitor usage and supplies, and upgrade software—all directly from a PC.

WorkCentre Pro 555/575

Affordable now and in the future.

WorkCentre Pro 555/575 systems are priced to compete with systems offering far less in features or performance—and your savings grow from there. Fast printing, copying, and scanning save everyone's valuable time. Advanced data compression and transmission technologies lower your fax costs without compromising on quality.

Designed for the desktop, the Pro 555/575 systems fit in, even where space is at a premium. And their benchmark reliability assures you of trouble-free performance, month after month and year after year.

Total Satisfaction Guaranteed.

Every WorkCentre system is covered by the Xerox Total Satisfaction Guarantee, which allows for full replacement at no charge for up to three years. Your authorized Xerox Sales Representative has details.

The Pro 555/575 are high-productivity solutions for small workgroups with moderate-to-heavy fax traffic, as well as print, copy, and scanning requirements.

Features:

- High quality documents at an affordable price
- Feature-rich and powerful, yet simple and intuitive to use
- Reliable, increasing your office's productivity

WorkCentre Pro 555/575 Multifunction Fax Systems

Affordable and reliable, with advanced technologies like JBIG compression and convenience features like ControlCentre software to match the requirements of today's small workgroups and personal offices—all easy to set up, use, and manage.

PRO 555

Economical and compact, the Pro 555 offers 5-in-1 productivity and reliable performance at an entry-level price.

Features:

- Built-in 14.4 Kbps modem with JBIG compression
- 8 ppm print engine
- True 600x600 dpi printing (400x400 dpi scanning and copying)
- 3 second/page fast scanning
- Up to 100-page memory
- 30-page automatic document feeder
- 250-page easy-loading paper cassette
- 1–99 copies of multi-page documents with four reduction modes
- PC faxing and printing
- TWAIN scanning and OCR
- Intuitive controls, with 20 one-touch keys, 120 speed dials, and 25 group dials
- ControlCentre software

PRO 575

All the advantages of the Pro 555 plus fast 33.6 Kbps fax speed and expanded page memory for busy environments with higher-volume fax, print, and copying demands.

Features:

- Built-in V.34 33.6 Kbps modem and JBIG compression
- Up to 266-page memory
- 38 one-touch keys, 188 speed dials, and 50 group dials

Options

The following options are available on both models:

- 500-sheet paper cassette
- Handset
