

# FusionPunch® II

## Inline Printer Punch

The FusionPunch II docks to your Xerox DocuTech™, DocuTech™ Highlight Color, iGen3™, DocuColor™ and Nuvera™ DPS Series printers to combine printing and punching into one step without added labor costs.

The revolutionary design reliably handles a large variety of stocks, including intermixed slick stocks, index tabs and lighter stocks, which can be difficult to finish with other equipment. The upgraded paper handling ensures reliability and less down time.

The punched paper is offset stacked in the stacker. There is no need for colored inserts marking the start and finish of the documents, or for operators to sort the documents. Additionally, with two stackers, printing and punching operations are continuous. As one stacker is unloaded, the second stacker accumulates the punched documents.

For your applications that do not require punching, the FusionPunch II has an optional touch-button bypass capability. This allows printed documents to pass through the FusionPunch II without being punched and travel seamlessly to an alternative finishing system. There is no need to disassemble the production line.\*

## Features and Benefits

- Docks to your high-speed printer, combining printing and punching into one step.
- Punches at the speed of the printer
- Completely enclosed for a unified look.
- C.S.A. and C.E. certified.
- Technologically innovative circuitry allows easy diagnostics.
- Paper size adjustments can be made quickly and easily.
- Die sets can be changed in seconds without tools.
- Revolutionary design handles a large variety of stocks with ease.
- Documents emerge punched and offset stacked.
- One or more stackers can be connected.

\* Please refer to the GBC® FusionPunch II Solution Planning Guide for more information on specifications.

## Specifications

<b>Printer:</b>	DocuTech™ 61XX Series, DocuTech™ 1XX Highlight Color Series, DocuColor™ Series, iGen3™ Digital Production Solutions, and Nuvera™ DPS Series
<b>Sheet Size:</b>	Punching long edge on 8½" x 11", including index tabs and 9" covers. Punching short edge on 11" x 17", 8½" x 11", and 8½" x 5½"
<b>Paper Stock:</b>	60 gsm (16lb bond) to (110lb index) to 250 gsm (12pt)
<b>Output Stacker:</b>	Each stacker holds 2500 sheets
<b>Dimensions:</b>	81" L x 32" W x 56" H
<b>Weight:</b>	Punch: 620lbs; Stacker: 270lbs Bypass Stacker: 320lbs
<b>Power Supply</b>	Punch: 115VAC, 60Hz, 4.7A
<b>USA/Canada:</b>	Stacker: 115VAC, 60Hz, 1.0A
<b>Power Supply</b>	Punch: 230VAC, 50Hz, 6.8A
<b>International:</b>	Stacker: 230VAC, 50Hz, .25A

### Validated by Xerox

The FusionPunch II is a supported and serviced solution by Xerox. A recent Xerox Partner of the Year, GBC® is committed to the same standards of excellence, customer satisfaction, and innovation.

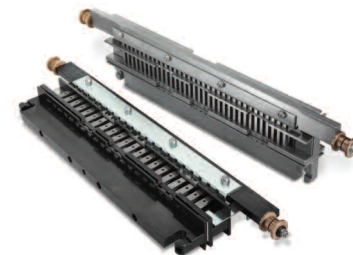

### Complementary Products

Complementary GBC® supply products include presentation covers, tabs and binding spines.
