

Replacement Cartridges for HP LaserJet Printers P3015

You purchased the HP P3015 for affordable monochrome network printing productivity. Xerox® Replacement Cartridges are both affordable and will increase your productivity.

We invented the all-in-one toner cartridge and have decades of experience under our belts. Put our knowledge and expertise to work for you.

Save more with up to a 25% savings over the HP brand—from the OEM you trust: Xerox. Why spend more?

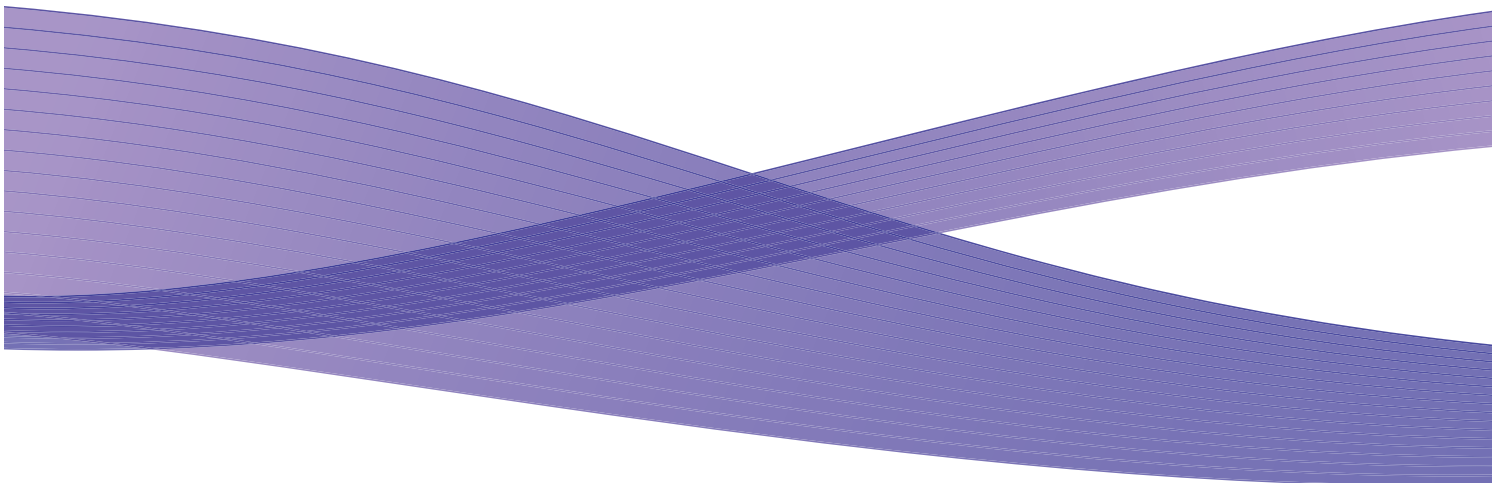

Get more with a page yield that meets or beats the OEM yield. Our testing concluded actual Xerox® cartridge yield in excess of stated OEM yield by about 8–10%.

- With crisp, sharp black images, even your two-sided documents look professional whether it's the first or last copy from your Xerox® cartridge.

Expect more with a cartridge that is backed by the Xerox Total Performance Warranty—

- If the cartridge fails to perform, return the cartridge to your reseller or to Xerox to ensure your 100% satisfaction.
- Xerox will send a new cartridge.
- And—Xerox will pay any repair costs should a cartridge damage your printer.

Give more back. Our products help keep plastic waste out of landfills while never compromising our quality. Now that is a cartridge you can feel good about using.

Product Description

Replacement Cartridges for HP LaserJet Printers P3015

Xerox Part Number	106R01621
Manufacture's Part Number	CE255A
Machine Type	HP LaserJet P3015
Replacement for:	HP LaserJet P3015 Series Printers
Length	14.5 inches
Width	5.25 inches
Height	9.75 inches
Weight	3.52 pounds
Average Page Yield	6,000 prints (equal to OEM)
Unit Barcode	0-95295-84951-9
Units/Pallet	92

Did You Know?

- Xerox has engineers dedicated to print quality for Xerox and Xerox® Replacement Cartridges.
 - Xerox performs over 20 different tests on all replacement cartridges to ensure the highest quality.
 - Xerox tests cartridges in different stressful climate conditions because our cartridges have to perform optimally regardless of whether your printer is in a cold/dry or hot/wet environment.
 - Every single cartridge is print tested in production to ensure performance.
- Xerox tests all cartridge models using a rigorous set of scoring criteria including protocols that meet ISO/IEC 19752 standards to validate and guarantee yields.
 - We also perform monthly life testing at our manufacturing sites and test samples from our warehouses—all to provide you the very best quality assurance possible.
- Xerox Environmental Health and Safety experts assess each cartridge design to ensure that no harmful substances are in our cartridges.
- Xerox is committed to responsible and environmental business practices. Our exemplary programs have helped keep thousands of cartridges out of landfills.
