

# 6 Ways to Take Your Print Supplies Business Higher

Time to leap into the 21st century and automate the way you run your business. With Xerox® Supplies Service, you can easily monitor, manage and deliver your customers' printing supplies. You receive an alert when their toner or ink is running low, get the best replacement options within one second, and click 'Order' to complete the process. Here are some of our favorite features that'll give you a leg up on the competition.

Spend less time managing print supplies and more time making a profit.
