

# Xerox® Note Converter App

Spend less time typing up handwritten notes and more time acting on them.

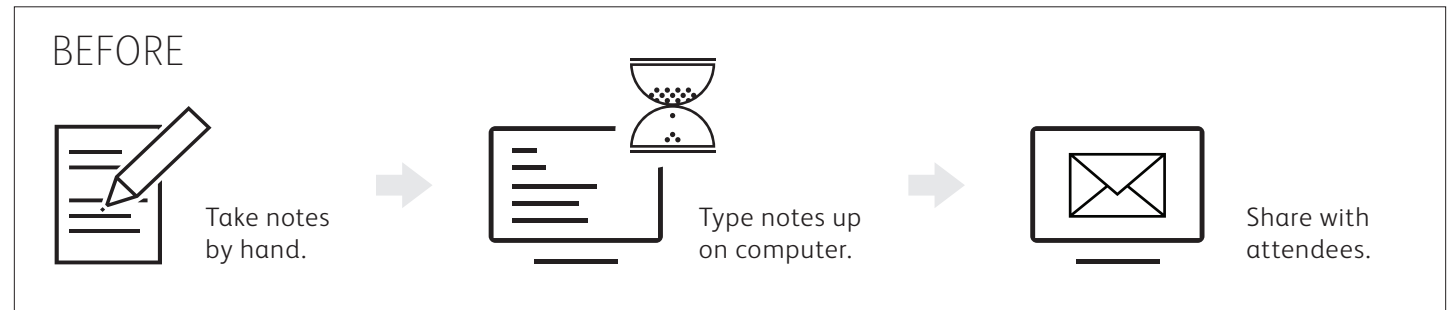

Xerox® Note Converter

## Write. Digitize. Share.

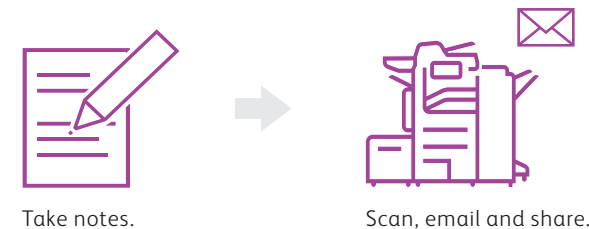

What if there were an easier way to get your notes off the page and into the hands of your coworkers? Using Google AI technology, the Xerox® Note Converter App lets you turn handwritten notes into legible, editable and shareable digital files in no time.

**60%** of business people that write notes by hand type them up after the meeting.

– NeoLab Convergence, Inc.

## AFTER

## Give your handwriting an upgrade.

With the Note Converter App, you get all the convenience and ease of handwritten notes, plus the simplicity and time savings of digital file conversion. Quickly and easily edit and share your notes with anyone in your organization.

**xerox**™

# Bring your notes to life with Xerox® Note Converter App.

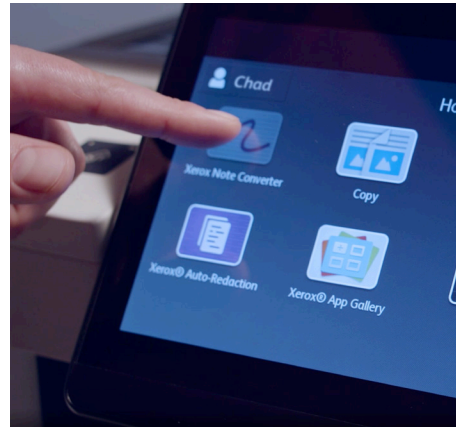

Xerox® Note Converter

Tap into the full potential of your handwritten notes. Optical character recognition (OCR) with Google AI technology is able to automatically recognize many handwriting styles. So you can save time converting your notes to digital files and get important information into the hands of your team, fast.

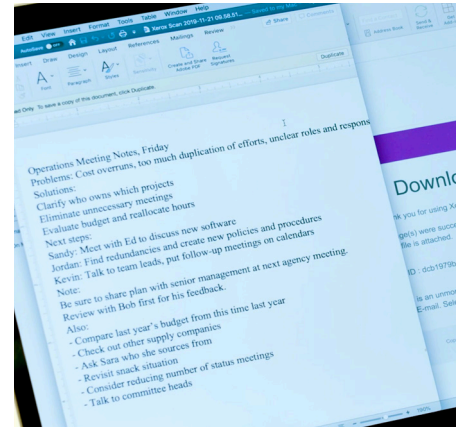

## Take notes.

Write your notes in a notebook or on a sheet of paper.

## Open the app, scan and convert.

Open the app, convert your handwritten notes to txt files and email them to yourself.

## Edit and share.

Edit your notes and share with your team.

Your workplace assistant is ready and waiting.

Streamline workflows and tame complex processes in any office setting with Xerox® ConnectKey® Technology-enabled devices and apps for your workplace assistant.

## PLEASE NOTE

While Google AI technology is capable of deciphering most handwriting styles, irregular characters that don't resemble the commonly accepted shape may not be recognized or transcribed accurately.
