

# Xerox® EX C9065/C9070 Print Server Powered by Fiery®

SPECIFICATIONS

Do more complex and higher value jobs with the high performance of the EX C9065/C9070 Print Server for the Xerox® PrimeLink® C9065/C9070 Printer

## **BOOST YOUR PRODUCTION AND PROFITS**

Easily handle heavy workloads and provide faster turnaround times. Support for industry-leading variable data printing (VDP) formats such as PDF/VT, PPML, VPS and Xerox® VIIPP® allow PSPs to satisfy customer demands and meet tight deadlines.

## **PRINT PERFECT PDFS.**

By supporting the Adobe® PDF Print Engine®, Fiery servers offer a native end-to-end PDF workflow, allowing you to improve the consistency of your printed output from design to print.

## **REDUCE ERRORS AND WASTE.**

Avoid costly mistakes with the troubleshooting, preflight and proofing tools of the optional Fiery Graphic Arts Package, Premium Edition. Combine with the free Fiery JobFlow® Base automation software for a seamless, error-free workflow.

## **A SECURE, INTEGRATED PRODUCTION ENVIRONMENT**

Built on the Microsoft® Windows 10 platform, the EX C9065/C9070 Print Server contains the latest security protections, such as Windows Defender. Other enhancements include encryption, secure printing, user authentication, and configurable backup and restore capabilities. The server features standard JDF connectivity and integrates with Xerox® ConnectKey® applications and common cost accounting software.

## **SPEED UP MAKEREADY .**

Easily perform complex document preparation using the intuitive Fiery Impose-Compose, and the optional Fiery JobMaster™ .

## **TURN UP THE IMPACT WITH PERSONALIZATION.**

With Fiery FreeForm™ Create, you can quickly and simply personalize existing files for free – with no additional VDP software required. Add variable elements such as text, images, or barcodes with just a few clicks.
