Sagemcom® XMediusFAX® Server Solution	Yes	No	No	Yes
Sagemcom® XMediusFAX® Server Solution	No	No	No	No

¹ Tested with a single IP configuration. Dual IP configuration may work and would require further validation.

² Generic third-party USB card readers (e.g., Elatec, RFIDeas) only. Equitrac card readers not supported. Western hemisphere only via CAS.

³ Xerox Extensible Interface Platform 2.0 via SPAR

⁴ Xerox Extensible Interface Platform 2.0 or higher with device software available at www.xerox.com

⁵ Requires Mobile Print version 2.5.1 or higher

⁶ Non-Xerox Extensible Interface Platform version

⁷ All supported solutions require dual IP configuration when used with Xerox® FreeFlow® Print Server. Equitrac Office / Equitrac Express and YSoft SafeQ functionality is limited when used with Xerox® FreeFlow Print Server. All other listed solutions are supported by Xerox® FreeFlow Print Server. Solution support for Xerox® FreeFlow Print Server was not validated by SIV.

⁸ The results listed are for a single IP configuration. Dual IP configuration results for EFI™ Standalone Print Server and EFI Integrated Controller are assumed to be similar to DMP. Dual IP configurations were not validated by SIV.

⁹ Full support in Q2 2017.
