Best of Both Worlds
Combine full colour with black and white to tell your story.

Commercial and quick printers like you have impressive capabilities when it comes to printing a variety of pieces for your clients. Use your own collateral to show off what’s possible, using the Xerox® Colour C60/C70 Printer and Xerox® D Series Copier/Printer or Printer.

The Opportunity
Let your collateral reflect your versatility and the advantages you provide. Show samples of high-quality, colour printing as well as cost-effective black and white. That’s just what Harle & Quinn Printing did in its collateral, Best of Both Worlds. This attractive, informative piece uses both full colour and detailed black and white photographs and artwork to showcase its value propositions – targeted messages, variable data, multiple finishing options, quick turnaround, low cost, high performance, digital speed, wide media latitude and award-winning image quality.

Create a collateral that shows the value you provide to your clients. There’s unlimited opportunity for you to keep your clients returning to you time and again for their printing needs – both in the colour and black and white worlds.

The Xerox Advantage
Thanks to the Xerox® Colour C60/C70 Printer and the Xerox® D Series Copier/Printer or Printer, you have the best of both worlds – high quality, full colour and cost-effective black and white. With the Xerox advantage, you have the flexibility to complete your collateral using preprinted pages for either colour or monochrome and using the Post Process Inserter on either the Xerox Colour C60/C70 Printer or Xerox® D Series Copier/Printer or Printer along with the Exception Page Programming feature to create your book. Use your own collateral to showcase what you can do with Xerox® products. Include samples of posters, post cards, calendars, books and more. Your clients may just want you to print their collateral, too!
Collateral
Application Brief

Production Notes
Showcase your full colour as well as your black and white offerings in your collateral to get the response you seek – more customers and repeat business for your commercial and quick print products and services.
