Calendars do their job every day.
A year-round tool for building your business.

Photo calendars – printed in full colour on the Xerox® Colour C60/C70 Printer or in black and white on the Xerox® D Series Copier/Printer or Printer – offer a business-building opportunity every day.

The Opportunity
Calendars are no longer just a once-a-year print job. With the ability to start them at any month, businesses and organisations can use them at any time to promote their brands, build customer loyalty, generate fundraising dollars, and more. Maybe that’s one reason why promotional calendars are a $1.5 billion and growing industry in the U.S. and worldwide. Today’s digital printing technology makes them a picture-perfect opportunity for you, too.

The Xerox Advantage
With the colour, quality, and speed of the Xerox® Colour C60/C70 Printer and the monochrome excellence and economy of the Xerox® D Series Copier/Printer or Printer, you can print promotional calendars that meet your customers’ quality and cost needs.

These versatile print engines deliver consistent, crisp 2400 x 2400 dpi images at speeds up to 70 ppm colour and up to 136 ppm black and white. So photos will reproduce with award-winning digital quality, providing pleasing results. And you can satisfy multiple price points, providing calendars that are full colour, monochrome only, or a combination of the two – such as with a colour cover and monochrome pages inside.

A wide range of inline finishing choices makes it easy to bind and finish a signature booklet as a promotional calendar, whether the end product calls for saddle stitching or coil binding using the GBC® AdvancedPunch.

Plus, the Xerox® Colour C60/C70 Printer and Xerox® D Series Copier/Printer or Printer offer you the flexibility to quickly and easily create a variety of other applications, from booklets and brochures to yearbooks, postcards, specialty media applications, and more.
Production Notes

In this example, a school’s sports fundraising club uses a photo calendar to create a moneymaking fundraiser. By selling ad space at the back of the calendar, the club could offset production costs.

Workflow / Software:
Adobe® InDesign® CS5

Print Engine:
Colour pages – Xerox® Colour C60/C70 Printer
Monochrome pages – Xerox® D Series Copier/Printer or Printer

Finishing:
Inline GBC AdvancedPunch or saddle stitched and then square fold trim

Number of Pages:
28 pages
