Expand your Xerox® Production Family with finishing options to produce a wider variety of print jobs.

The new GBC AdvancedPunch for the Xerox® Color 800i/1000i Presses, Xerox® Versant® 2100 and 80 Presses, Xerox® Color C60/C70 Printer, Xerox® D Series Printer and Xerox® D Series Copier/Printer, lets you create professionally bound documents in-house by combining printing, punching and collating into one convenient step. You can select from various interchangeable die sets for popular binding styles without manual punching, thereby increasing productivity and lowering costs while producing professional looking documents.

**Features**
- Enables inline printing, punching and collating for ready-to-bind offline applications
- AdvancedPunch module is fully integrated with the printer
- Select from various interchangeable (optional) die sets for popular binding styles; no need for offline manual punching
- Three additional die sets can be stored within the AdvancedPunch module
- User-friendly replacement of die sets without need for levers or tools
- AdvancedPunch module uses a unique waste container sensor design and includes a large waste container to collect scrap punches
- Supports punching of pre-cut tab stock to create punched applications such as manuals, guides or planners

**Benefits**
- Maximize productivity and lower overall cost of production; reduce setup time and cost associated with manual finishing by providing ready-to-bind documents at the touch of a button
- Add style and versatility to bound documents; up to seven common punching styles produce ready-to-bind documents at rated speeds
- Easy to create professionally bound documents in-house for commonly used offline binding styles
- Designed for walk-up users or for production professionals, so users can initiate punch jobs right from their desktop or from the print controllers
