

Xerox® Integrated Copy/Print Server

for the Xerox® D136 Copier/Printer

With the state-of-the-art Xerox® Integrated Copy/Print Server, the Xerox® D136 Copier/Printer delivers a portfolio of the industry's most innovative features and capabilities. You'll get a simple workflow with an easy-to-use touch screen, excellent features and a small footprint.

- **Ease-of-use.** Straightforward graphic user interface is rich in easily accessible features with large 10.4 inch full color touch screen.
- **Superior scanning.** Create text-searchable files at the device for easy retrieval—compression technology reduces network load for fast transmission.
- **Remotely manage your device.** Xerox® CentreWare® IS Embedded Web Server automates installation, troubleshooting feature set up and upgrading.
- **Multiple sets of copies with separators.** Make multiple collated or uncollated sets separated by slip sheets for efficient distribution.
- **Security.** A large set of security features is packed into one compact device, including Secure Print, data encryption/overwrite capabilities and optional removable hard drives.
- **Copy and Save/Print and Delete modes.** Select “copy and save” on the touch screen and, as you copy, document images and settings are saved to a mailbox/folder on the internal server.
- **Thumbnail preview.** See a thumbnail view of your copy/scan job right at the touch screen.
- **Bates stamping.** Built-in Bates Stamping feature generates copies with customized alpha-numeric descriptors on each page.
- **Xerox Extensible Interface Platform®.** This is a software platform that allows productivity-enhancing solutions to be easily accessed right at the copier/printer's touch screen interface. Learn more about our many solutions offerings by visiting www.xerox.com/software-solutions.
- **Exception page programming.** Easy programming of your jobs right at your PC or Mac® print driver, for example, color covers and inserts, tabs and Z-folds.
