1. Product and Company Identification

Trade Name: Dry Ink Cartridge for 1012, 5012, 5014

Part no.: 006R00257, 006R00259, 006R00275, 006R00456, 006R00528, 006R00557, 006R00558

Color: Black
Pure substance/preparation: Preparation
Identified uses: Xerographic printing
Manufactured by: Xerox Corporation
Rochester, NY 14644

Emergency telephone:
Safety Information US: (800) 275-9376
Chemical Emergency only (Chemtrec) (800) 424-9300

2. Hazards Identification

Emergency Overview
The product contains no substances which, in the form utilized and at their given concentrations, are considered to be hazardous to health.

Classification of the substance or mixture

Customer use / Cartridges and sealed bottles

OSHA Hazard Classification
This product is an article which contains a mixture / preparation in powder form. Safety information is given for exposure to the article as sold and used by the customer. Intended use of the product is not expected to result in exposure to the mixture / preparation based on the packaging and method of dispensing.

While this material is not considered hazardous by the OSHA hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information for the safe handling and proper use of the product. This SDS should be retained and made available to employees and other users of this product.

Label elements

Signal Word: None
Hazard Statements: None required
Precautionary Statements: None required
Potential Health Effects

Principle Routes of Exposure

Inhalation

Acute toxicity

Eyes: No known effect
Skin: No known effect
Inhalation: No known effect
Ingestion: No known effect

Chronic effects

Main symptoms: Overexposure may cause:
mild respiratory irritation similar to nuisance dust.

Aggravated medical conditions: None under normal use conditions

Environmental hazard: The environmental impact of this product has not been fully investigated. However, this preparation is not expected to present significant adverse environmental effects.

3. Composition/Information on Ingredients

<table>
<thead>
<tr>

</table>

4. First Aid Measures

General advice: For external use only. When symptoms persist or in all cases of doubt seek medical advice. Show this material safety data sheet to the doctor in attendance.

Eye contact: Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes.

Skin contact: Wash skin with soap and water

Inhalation: Move to fresh air

Ingestion: Rinse mouth with water and afterwards drink plenty of water or milk

Notes to physician: Treat symptomatically

Protection of first-aiders: No special protective equipment required

5. Fire-Fighting Measures

Flammable properties: Not flammable. Will not readily ignite

Flash point: Not applicable

Suitable extinguishing media: Use water spray or fog; do not use straight streams, Foam

Unsuitable extinguishing media: Do not use a solid water stream as it may scatter and spread fire

Specific hazards arising from the chemical
Hazardous combustion products: Hazardous decomposition products due to incomplete combustion, Carbon oxides, Nitrogen oxides (NOx)

Explosion Data:
Sensitivity to Mechanical Impact: Not impact sensitive
Sensitivity to Static Discharge: Fine dust dispersed in air, in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard

Protective Equipment and Precautions for Firefighters:
In the event of fire and/or explosion do not breathe fumes. Wear fire/flame resistant/retardant clothing. Use self-contained pressure-demand breathing apparatus if needed to prevent exposure to smoke or airborne toxins.

6. Accidental Release Measures

</tbody>
</table>
Other Information
The results obtained from a Xerox sponsored Chronic Toner Inhalation Study demonstrated no lung changes in rats for the lowest (1 mg/m³) exposure level (the level most relevant to potential human exposure). A very slight degree of fibrosis was noted in 25% of animals at the middle (4 mg/m³) exposure level, while a slight degree of fibrosis was noted in all the animals at the highest (16 mg/m³) exposure level. These findings are attributed to "lung overloading", a generic response to excessive amounts of any dust retained in the lungs for a prolonged period. This study was conducted using a special test toner to comply with an EPA testing protocol.

Biological standards
This product, as supplied, does not contain any hazardous materials with biological limits established by the region specific regulatory bodies.

Occupational Exposure Controls

Engineering measures
None under normal use conditions

Personal Protective Equipment

Customer use / Cartridges and sealed bottles

Respiratory protection
No special protective equipment required

Eye/face protection
No special protective equipment required

Skin and body protection
No special protective equipment required

Hand protection
No special protective equipment required

10. Stability and Reactivity
Reactivity
No dangerous reaction known under conditions of normal use

Stability
Stable under normal conditions

Incompatible products
None

Conditions to Avoid
Prevent dust cloud
Fine dust dispersed in air, in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard

Hazardous Decomposition Products
None under normal use

Hazardous polymerization
Hazardous polymerization does not occur.

Hazardous reactions
None under normal processing

11. Toxicological Information
The toxicity data noted below is based on the test results of similar reprographic materials.

Acute toxicity
Product information
Irritation
No skin irritation, No eye irritation
LD50 Oral
> 5 g/kg (rat)
LD50 Dermal
> 5 g/kg (rabbit)
LC50 Inhalation:
> 5 mg/L (rat, 4 hr)

Eyes
No known effect
Skin
No known effect
Inhalation
No known effect
Ingestion
No known effect

Chronic toxicity
Product information
Chronic effects
No known effects under normal use conditions
Main symptoms
Overexposure may cause: mild respiratory irritation similar to nuisance dust.
Aggravated medical conditions
None under normal use conditions
Carcinogenicity
Contains no ingredient listed as a carcinogen.

Other toxic effects
Product information
Sensitization
No sensitization responses were observed.
Mutagenic effects
Not mutagenic in AMES Test
Target organ effects
None known

Other adverse effects
None known
Aspiration Hazard
Not applicable

12. Ecological Information
Ecotoxicity
The environmental impact of this product has not been fully investigated. However, this preparation is not expected to present significant adverse environmental effects.
13. Disposal Considerations

Waste Disposal Methods
This material, as supplied, is not a hazardous waste according to Federal regulations (40 CFR 261). This material could become a hazardous waste if it is mixed with or otherwise comes in contact with a hazardous waste, if chemical additions are made to this material, or if the material is processed or otherwise altered. Consult 40 CFR 261 to determine whether the altered material is a hazardous waste. Consult the appropriate state, regional, or local regulations for additional requirements.

Contaminated packaging
Dispose of in accordance with local regulations.

14. Transport Information

Note
This material is not subject to regulation as a hazardous material for shipping.

15. Regulatory Information

OSHA Regulatory Status
This product is an article which contains a mixture / preparation in powder form. Safety information is given for exposure to the article as sold and used by the customer. Intended use of the product is not expected to result in exposure to the mixture / preparation based on the packaging and method of dispensing.

While this material is not considered hazardous by the OSHA hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information for the safe handling and proper use of the product. This SDS should be retained and made available to employees and other users of this product.

International Inventories
- TSCA: Complies
- DSL/NDSL: Complies

U.S. Federal Regulations
- SARA 313
  Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product does not contain any chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372.

- Clean Water Act
  This product is not regulated as a pollutant pursuant to the Clean Water Act (40 CFR 122.21 and 40 CFR 122.42).

- Clean Air Act, Section 112 Hazardous Air Pollutants (HAPs) (see 40 CFR 61)
  This product is not regulated as a hazardous air pollutant (HAPS) under Section 112 of the Clean Air Act Amendments of 1990.

- CERCLA
  This material, as supplied, does not contain any substances regulated as hazardous substances under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302) or the Superfund Amendments and Reauthorization Act (SARA) (40 CFR 355). There may be specific reporting requirements at the local, regional, or state level pertaining to releases of this material.

- TSCA
  TSCA 12(b) does not apply to this product.

U.S. State Regulations
- California Proposition 65
  This product does not contain any Proposition 65 chemicals.

U.S. State Right-to-Know Regulations
Although this product contains substances included in some U.S. State Right-to-Know regulations, the particles are bound in a unique matrix and, therefore, the product does not pose any specific hazard.

**Canada**
This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations (CPR) and the SDS contains all the information required by the CPR.
