2. HAZARDS IDENTIFICATION

Emergency Overview
The product contains no substances which, in the form utilized and at their given concentrations, are considered to be hazardous to health.

<table>

Classification of the substance or mixture

Customer use / Cartridges and sealed bottles

OSHA Hazard Classification
This product is an article which contains a mixture / preparation in powder form. Safety information is given for exposure to the article as sold and used by the customer. Intended use of the product is not expected to result in exposure to the mixture / preparation based on the packaging and method of dispensing.

While this material is not considered hazardous by the OSHA hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information for the safe handling and proper use of the product. This SDS should be retained and made available to employees and other users of this product.
Label elements

Signal Word  None
Hazard Statements  None required
Precautionary Statements  None required

Potential Health Effects

Principle Routes of Exposure  Inhalation
Acute toxicity
Eyes  No known effect
Skin  No known effect
Inhalation  No known effect
Ingestion  No known effect
Chronic effects
Chronic toxicity  No known effects under normal use conditions
Main symptoms  Overexposure may cause:
  mild respiratory irritation similar to nuisance dust.
Aggravated Medical Conditions
Environmental hazard  The environmental impact of this product has not been fully investigated. However, this preparation is not expected to present significant adverse environmental effects.

3. COMPOSITION/INFORMATION ON INGREDIENTS

May contain one or more of the following component CAS #'s:  Resin (Proprietary, 26655-10-7)  Wax (Proprietary, 9003-07-0)

<table>
<thead>
<tr>

</table>

4. FIRST AID MEASURES

General advice  For external use only. When symptoms persist or in all cases of doubt seek medical advice. Show this material safety data sheet to the doctor in attendance.

Eye contact  Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes
Skin contact  Wash skin with soap and water
Inhalation  Move to fresh air
Ingestion  Rinse mouth with water and afterwards drink plenty of water or milk
Notes to physician  Treat symptomatically
Protection of first-aiders  No special protective equipment required

5. FIRE-FIGHTING MEASURES

Flammable properties  Not flammable. Will not readily ignite
Flash point  
Not applicable

Suitable extinguishing media  
Use water spray or fog; do not use straight streams, Foam

Unsuitable extinguishing media  
Do not use a solid water stream as it may scatter and spread fire

**Specific hazards arising from the chemical**
Fine dust dispersed in air, in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard

**Hazardous combustion products**  
Hazardous decomposition products due to incomplete combustion, Carbon oxides, Nitrogen oxides (NOx)

**Explosion Data**

| Sensitivity to Mechanical Impact | Not impact sensitive |
| Sensitivity to Static Discharge | Fine dust dispersed in air, in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard |

**Protective Equipment and Precautions for Firefighters**
In the event of fire and/or explosion do not breathe fumes. Wear fire/flame resistant/retardant clothing. Use self-contained pressure-demand breathing apparatus if needed to prevent exposure to smoke or airborne toxins.

### 6. ACCIDENTAL RELEASE MEASURES

**Personal Precautions**  
Avoid breathing dust

**Environmental Precautions**  
No special environmental precautions required

**Methods for containment**  
Prevent dust cloud

**Methods for cleaning up**  
Prevent dust cloud, Sweep up or vacuum up spillage and collect in suitable container for disposal, Use non-sparking tools and equipment

**Other information**  
The environmental impact of this product has not been fully investigated, However, this preparation is not expected to present significant adverse environmental effects

### 7. HANDLING AND STORAGE

**Advice on safe handling**  
Handle in accordance with good industrial hygiene and safety practice, Avoid dust accumulation in enclosed space, Prevent dust cloud

**Technical measures and storage conditions**  
Keep container tightly closed in a dry and well-ventilated place, Store at room temperature

**Hygiene measures**  
None under normal use conditions

### 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

**Exposure guidelines**  
No information available

**Product Information**

| ACGIH TLV TWA  | 10 mg/m³ (inhalable particles) |
| ACGIH TLV TWA  | 3 mg/m³ (respirable dust) |
| OSHA PEL TWA  | 15 mg/m³ (total dust) |
| OSHA PEL TWA  | 5 mg/m³ (respirable dust) |
| Xerox Exposure Limit | 2.5 mg/m³ (total dust) |
Xerox Exposure Limit

0.4 mg/m³ (respirable dust)

Other information
The results obtained from a Xerox sponsored Chronic Toner Inhalation Study demonstrated no lung changes in rats for the lowest (1 mg/m³) exposure level (the level most relevant to potential human exposure). A very slight degree of fibrosis was noted in 25% of animals at the middle (4 mg/m³) exposure level, while a slight degree of fibrosis was noted in all the animals at the highest (16 mg/m³) exposure level. These findings are attributed to “lung overloading”, a generic response to excessive amounts of any dust retained in the lungs for a prolonged period. This study was conducted using a special test toner to comply with an EPA testing protocol.

Occupational exposure controls

Engineering measures
None under normal use conditions

Personal Protective Equipment

Customer use / Cartridges and sealed bottles

Respiratory protection No special protective equipment required
Eye/face protection No special protective equipment required
Skin and body protection No special protective equipment required
Hand protection No special protective equipment required

10. STABILITY AND REACTIVITY

Reactivity No dangerous reaction known under conditions of normal use
Stability
Stable under normal conditions

Incompatible products
None

Conditions to Avoid
Prevent dust cloud. Fine dust dispersed in air, in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard

Hazardous Decomposition Products
None under normal use

Hazardous polymerization
Hazardous polymerization does not occur

Hazardous reactions
None under normal processing

11. TOXICOCLOGICAL INFORMATION

The toxicity data noted below is based on the test results of similar reprographic materials.

Acute toxicity
Product Information
Irritation
No skin irritation, No eye irritation

Oral LD50
> 5 g/kg (rat)

Dermal LD50
> 5 g/kg (rabbit)

LC50 Inhalation
> 5 mg/L (rat, 4 hr)

Eyes
No known effect

Skin
No known effect

Inhalation
No known effect

Ingestion
No known effect

Chronic toxicity
Product Information
Chronic effects
No known effects under normal use conditions

Main symptoms
Overexposure may cause: mild respiratory irritation similar to nuisance dust.

Aggravated Medical Conditions
None under normal use conditions

Carcinogenicity
See "Other Information" in this section.

<table>
<thead>
<tr>
<th>Chemical Name</th>
<th>IARC</th>
<th>NTP</th>
</tr>
</thead>
<tbody>
<tr>
<td>Carbon Black</td>
<td>2B</td>
<td></td>
</tr>
</tbody>
</table>

Other information
The IARC (International Agency for Research on Cancer) has listed carbon black as "possibly carcinogenic to humans". However, Xerox has concluded that the presence of carbon black in this mixture does not present a health hazard. The IARC classification is based on studies evaluating pure, "free" carbon black. In contrast, toner is a formulation composed of specially prepared polymer and a small amount of carbon black (or other pigment). In the process of making toner, the small amount of carbon black becomes encapsulated within a matrix. Xerox has performed extensive testing of toner, including a chronic bioassay (test for potential carcinogenicity). Exposure to toner did not produce evidence of cancer in exposed animals. The results were submitted to regulatory agencies and published extensively.

Other toxic effects
Product Information
Sensitization
No sensitization responses were observed

Mutagenic effects
Not mutagenic in AMES Test

Target organ effects
None known

Other adverse effects
None known

Aspiration Hazard
Not applicable

12. ECOLOGICAL INFORMATION
Ecotoxicity
The environmental impact of this product has not been fully investigated. However, this preparation is not expected to present significant adverse environmental effects.

13. DISPOSAL CONSIDERATIONS

Waste Disposal Methods

This material, as supplied, is not a hazardous waste according to Federal regulations (40 CFR 261). This material could become a hazardous waste if it is mixed with or otherwise comes in contact with a hazardous waste, if chemical additions are made to this material, or if the material is processed or otherwise altered. Consult 40 CFR 261 to determine whether the altered material is a hazardous waste. Consult the appropriate state, regional, or local regulations for additional requirements.

Contaminated packaging
Dispose of in accordance with local regulations.

14. TRANSPORT INFORMATION

Note
This material is not subject to regulation as a hazardous material for shipping

15. REGULATORY INFORMATION

OSHA Regulatory Status
This product is an article which contains a mixture / preparation in powder form. Safety information is given for exposure to the article as sold and used by the customer. Intended use of the product is not expected to result in exposure to the mixture / preparation based on the packaging and method of dispensing.
While this material is not considered hazardous by the OSHA hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information for the safe handling and proper use of the product. This SDS should be retained and made available to employees and other users of this product.

International Inventories

TSCA Complies
DSL/NDSL Complies

U.S. Federal Regulations

SARA 313
Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product does not contain any chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372

Clean Water Act
This product is not regulated as a pollutant pursuant to the Clean Water Act (40 CFR 122.21 and 40 CFR 122.42).

Clean Air Act, Section 112 Hazardous Air Pollutants (HAPs) (see 40 CFR 61)
This product is not regulated as a hazardous air pollutant (HAPS) under Section 112 of the Clean Air Act Amendments of 1990.

CERCLA
This material, as supplied, does not contain any substances regulated as hazardous substances under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302) or the Superfund Amendments and Reauthorization Act (SARA) (40 CFR 355). There may be specific reporting requirements at the local, regional, or state level pertaining to releases of this material

TSCA
TSCA 12(b) does not apply to this product.

US State Regulations

California Proposition 65
Carbon black is regulated under California Proposition 65 only if in the form of "airborne, unbound particles of respirable size". Toner products do not contain carbon black in the form of "airborne, unbound particles of respirable size". Therefore, the requirements of Proposition 65 do not apply to this product.

**U.S. State Right-to-Know Regulations**
Although this product contains substances included in some U.S. State Right-to-Know regulations, the particles are bound in a unique matrix and, therefore, the product does not pose any specific hazard.

**Canada**
This product has been classified in accordance with the hazard criteria of the Hazardous Products Regulations (HPR), and the SDS contains all the information required by the HPR.

**WHMIS Hazard Class**
Not subject to WHMIS classification
