

Recommended Xerox Media for Phaser® 6600/WorkCentre® 6605 - Europe

Version 1.0. September 2012

This supersedes any previous Recommended Media for Xerox Phaser 6600/WorkCentre 6605.

Important Notes:

All media is listed by product, machine run mode, weight (standard gsm), re-order number, size, and tray runnability. The additional information column is for hints and tips on how to run certain media applications.

Media recommendations made in this publication are based on qualification tests* conducted using standard test images with moderate to heavy image area coverage. Test duration for each product/media type is based on the suggested machine monthly copy/print volume. Test machines are maintained within specifications defined by user documentation.

*Testing Environment temperature range of 60-75 deg. F, Relative Humidity range 30-50%. For those customers operating equipment in environments of extremely low or high humidity - not all products on this list have been validated under these conditions.

*Machine reliability specifications may be affected by increased usage of the Card Stock, Glossy papers, Label, and other special modes. In addition, variances in machine reliability may occur due to extended use of some media types. Your Xerox service representative can advise you on special application media types for long duration copy/print runs.

For specifications and a description of the various media types discussed in this publication, please refer to www.xerox.com.

Warranty Disclaimer:

Xerox makes no guarantees or warranties, either expressed or implied, concerning the performance, use or replacement of non-Xerox branded media or throughput products. Customers should inquire directly of their paper distributor or manufacturer for any guarantees they may offer. When purchasing a particular media product for the first time, customers are advised to purchase small quantities to ensure that their expectations are met.

The quality of Xerox supplies is consistent from ream to ream, carton to carton and it is backed by a Xerox 100% guarantee. The quality of non-Xerox branded paper may vary from ream to ream or carton to carton, so for optimum performance on Xerox colour equipment, use only the best - Xerox Supplies.

Heavyweight Cardstock (164 - 216 gsm)
Labels

Phaser 6600 / WorkCentre 6605

Recommended Media List Europe V1.0

Trays

A = Auto Duplex S = Simplex Only
M = Manual Duplex n = not supported

Media	Paper Type Setting	Weight	Re-Order #	Type	Size	Bypass Tray	Trays 1 and 2	Additional Information
Xerox Business	Plain	80 gsm	003R91820		A4	A	A	Gloss variation can occur from machine rolls on high coverage, solid fill prints; if so, adjust the fuser temperature, reduce coverage, or try a different paper. Tray 1 or Tray 2 may reduce jam issues or improve pick performance seen with the bypass tray. High humidity may cause misfeeds or multifeeds.
			003R91823 (4 hole)		A4	A	A	
Xerox Premier	Plain	80 gsm	003R91832		A5	A	A	
			003R91720		A4	A	A
