

Recommended Xerox Media for WorkCentre 6400 (Europe)

Revision 1.1, May 2009

This is 1st Revision:

Important Note:

All media is listed by product, paper type, paper tray settings - image quality, weight (standard gsm), re-order number, size, tray runability, and integrated office finisher runability. The additional information column is for hints and tips on how to run certain media applications.

Machine reliability may be affected by increased usage of Card Stocks and Glossy papers.

Environmental Conditions may require that Gloss papers be fed one sheet at a time through Tray 1. Relative Humidity greater than 40% could cause multifeeds. Output may require removal at 25 sheets in the tray when not using a finisher.

Xerox® and all Xerox product names and product numbers mentioned in this publication are trademarks of Xerox Corporation. Other company trademarks are also acknowledged.

For the latest line of Xerox supplies contact your local Xerox representative or a recommended distributor. For the most recent version of this list visit our website at www.xerox.com, select "Country", then "Supplies".
