

# How do you leverage your organization's data to achieve maximum benefit?

Ignorance isn't bliss — what you don't know about your data can be hurting your organization. Blindspots come in all shapes and sizes, and can be buried within time-consuming processes, difficult-to-use tools, scattered data, disparate sources and inactionable reports. It's time to bring it all together in your field of vision.

## A SINGLE VIEW WITH MULTIPLE BENEFITS

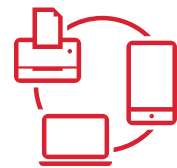

Introducing the Xerox Capture & Content Analytics Dashboard, an always-on, consolidated view that uses data from our global platform to help your organization improve efficiency, security and productivity. With a single view of key deliverables and anytime-anywhere access via a web browser, our Capture & Content Analytics Dashboard provides unparalleled line of sight, allowing you to drill down into your data and draw strategic insights.

## DEEPER INSIGHTS, ON-DEMAND

Our analytics dashboard is cloud based and requires nothing to install, allowing you to get up to speed and down to business in no time. The Production Workflow Manager continuously monitors thousands of data points, providing insight into specific service metrics such as items processed by date or type. The result is the best of both worlds — the big picture and the smallest detail.

## CAPTURE & CONTENT SERVICES

Xerox Capture & Content Services automatically ingests multichannel data to feed to downstream processes — making it easy to capture, digitize, archive and access paper and digital documents quickly and efficiently thanks to Intelligent Document Processing capabilities.

## STAY IN THE KNOW AND A STEP AHEAD WITH THE LATEST INFORMATION

**DRILL DOWN** from the highest levels of information to the lowest details like images, document type, job number and more.

**EXPORT** specific dashboard views to PDF or PPT.

**BOOKMARK** a filtered state so you can immediately jump to that view at any time.

**SUBSCRIBE** to set up an automated email that sends a snapshot of a screen or dashboard at an interval of your choosing.

**IN-DEPTH AND INTUITIVE**

- Gain crystal clear visibility into your document processes
- Interact with your data using a dynamic, user-friendly interface featuring tabular detail
- Identify issues and make faster business decisions thanks to data visualizations

**SELF-SERVE DATA**

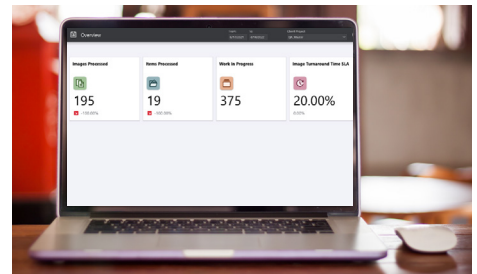

- Breeze through the web portal as if you were browsing a website
- Access the web portal anytime, from anywhere and any device
- Dive deep into underperforming areas and export the report

**FAST AND CONVENIENT**

- Capture and share information in comprehensive reports
- Get the insights you need on the spot
- Review a summary with KPIs of process performance

Your processes don't stop and neither should you. Make knowledge your superpower with Capture & Content Services Analytics Dashboard. Get all the information you need to make faster, more effective business decisions at your

fingertips with a near real-time, dynamic view of data and reporting. The results will speak for themselves — more clarity, higher ROI, improved productivity and improved agility.

Here are some of the insights you can expect from our dashboard.

ANALYTICS	INSIGHT EXAMPLES
Images and items processed	Summary of images processed over a specific time range, including a detailed view providing: <ul style="list-style-type: none"> <li>• Images by process type and document type</li> <li>• Average number of images per day</li> </ul>
