

# Start Using Information More Effectively with Xerox® Capture & Content Services

Information is exploding. Competition is expanding. Regulatory rules seem to change every month. Today's challenges demand innovation at scale. So why are so many organizations still relying on traditional processes?

To compete in today's accelerating world, you can't afford to waste time working in siloes and buried in information. You need instant access to information across your organization, and insights that pinpoint how to enhance efficiency and security.

## THAT'S WHY WE CREATED XEROX® CAPTURE & CONTENT SERVICES — TO REDEFINE THE WAY YOU INTERACT WITH CONTENT.

Xerox® Capture & Content Services is a package of capabilities designed to help any organization use information more effectively. Leveraging powerful analytics, we're able to identify problems and help you tame the massive influx of documents you deal with every day.

- Automatically capture, classify and catalog key information from paper and digital documents
- Extract critical data and insights from print and digital content using machine learning and automated document classification
- Automate and streamline complex data-intensive business processes
- Enhance collaboration with an intuitive browser interface that enables anytime, anywhere access to protected information
- Protect sensitive business and customer data and maintain regulatory compliance with fully automated records management

HERE ARE SOME OF THE RESULTS WE'VE HELPED OUR CLIENTS ACHIEVE:

**24/7** global accessibility through unified content management

**50%** document processing time reduction

**86% faster** turnaround time for higher customer satisfaction

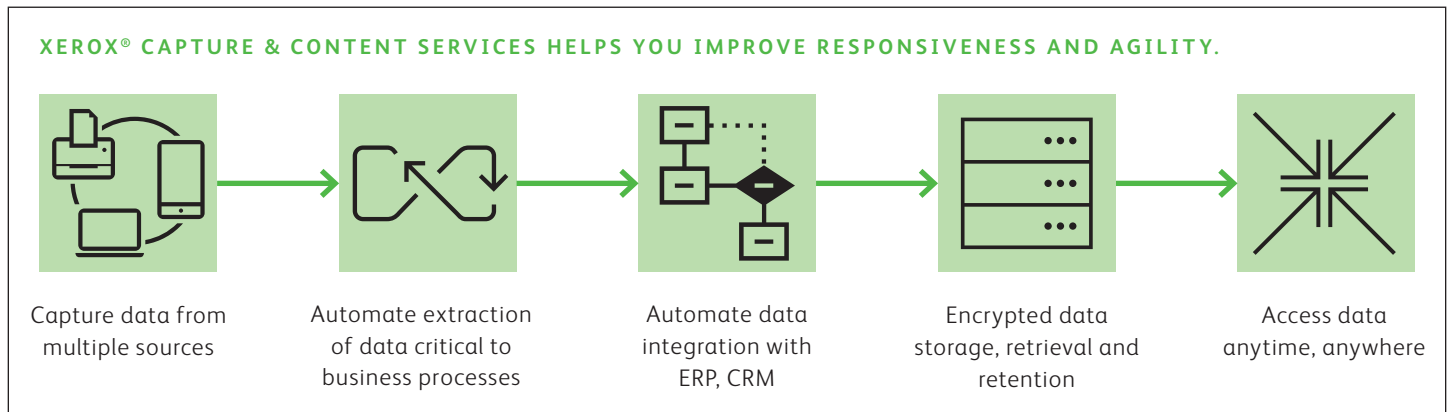

**Fully digitized** and automated business process

## Let's make your content work better.

In developing Xerox® Capture & Content Services, we began by looking at all the ways organizations use information. We analyzed every touchpoint, as well as how best to improve accuracy and accessibility while reducing errors.

The result is a suite of services that is as intuitive as it is effective. Leveraging powerful AI and machine learning, you can streamline important processes to become more competitive, jump-start digital transformation and empower your employees with ready access to critical business data.

### TAKE A BIG STEP IN YOUR DIGITAL MIGRATION.

- Take control of your business with end-to-end digital transformation and automation
- Achieve federated search capabilities to break down operational silos
- Enhance regulatory compliance and data security with records management and auditable workflows in a secure Digital Vault
- Power next-generation productivity and competitiveness, plus benchmark customer service, with a higher-velocity business

### We can help improve the way you work.

Let us put our experience in analytics and technology expertise to work freeing up your employees, boosting productivity and redefining the way you work at your organization.
