

Enhance the Way You Work with Xerox® Intelligent Workplace Services

Digital transformation has never been more essential. But implementing new technologies that scale with your business and keep data secure can be a challenge.

What if there were a way to move beyond traditional Managed Print Services to use data and advanced analytics to drive innovation forward? It would be a game changer.

WE DEVELOPED XEROX® INTELLIGENT WORKPLACE SERVICES TO ADVANCE THE WAY EMPLOYEES AND TECHNOLOGY WORK TOGETHER.

Xerox® Intelligent Workplace Services is a portfolio of capabilities designed to:

- Build a more efficient workplace with reduced costs, optimized print and document infrastructure, improved sustainability metrics and stronger ROI
- Boost employee engagement and productivity with automated processes, enhanced user experience and easy access to the information they need to get work done
- Ensure the security of your documents, devices and data, and align with data privacy and regulatory compliance policies

Whether you're part of a small business or a global enterprise, you can:

- Augment your IT infrastructure and mobile workforce with scalable, easy-to-use cloud technologies that seamlessly integrate with Xerox workplace assistants — Xerox® AltaLink® Printers and Xerox® VersaLink® Printers
- Use analytics to provide actionable insight to devices, documents, users and paper-based processes to maintain an optimized workplace
- Automate processes with solutions ranging from simple apps to content management systems that can be customized to meet your needs
- Prevent, detect and protect: Maintain a secure print infrastructure with comprehensive security features in partnership with McAfee and Cisco
