Material Safety Data Sheet

Supplier: Xerox Corporation
Rochester, NY 14644
Xerox Canada Ltd.
5650 Yonge Street
North York, Ontario M2M 4G7

Telephone #: Safety Information: (800) 828-6571
Health Emergency: (716)422-2177
Transportation Emergency:(716)422-1230

Section I - Product Identification

Trade Names/Synonyms: CE-Cyan Toner Intensifier; VPC, CE3000
Series, CE3200 Series, CE3400 Series, 8900
Series, 8910

Chemical Name: None

WHMIS Status: Class B/Div. 3, Combustible liquid and Class D/Div. 2B, Toxic

Ingredients % by wt.) 1,2

Section II - Emergency and First Aid

Primary Route of Entry: Inhalation

Eyes: Flush with water for 15 minutes. If irritation persist, call a physician.

Skin: Wash with soap and water. If skin is broken, call a physician.

Inhalation: Remove from exposure.

Ingestion: DO NOT induce vomiting, call a physician immediately.

Symptoms of Overexposure:

High vapor concentrations (>1000 ppm) are irritating to the eyes and respiratory tract, and may cause headaches, dizziness, anesthesia, drowsiness, unconsciousness, and other central nervous system effects, including fatality.

Medical Conditions Generally Aggravated by Exposure:

Skin contact may aggravate an existing dermatitis.

Additional Information:

None.

Section III - Toxicology and Health Information

This material has been evaluated by Xerox Corporation. The toxicity data noted below is for isoparaffinic hydrocarbons and similar inks.

<table>
<thead>
<tr>
<th>Toxicity Data</th>
<th>Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>Oral LD&lt;sub&gt;50&lt;/sub&gt;:</td>
<td>&gt;10 g/kg (rat) practically non-toxic.</td>
</tr>
<tr>
<td>Dermal LD&lt;sub&gt;50&lt;/sub&gt;:</td>
<td>&gt;3.2 g/kg (rabbit) practically non-toxic.</td>
</tr>
<tr>
<td>Inhalaion LC&lt;sub&gt;50&lt;/sub&gt;:</td>
<td>&gt;2000 ppm/4 hr (rat); &gt;1800 ppm/6 hr (monkey) practically non-toxic.</td>
</tr>
<tr>
<td>Eye Irritation:</td>
<td>May cause irritation.</td>
</tr>
<tr>
<td>Skin Sensitization:</td>
<td>Not a sensitizer.</td>
</tr>
<tr>
<td>Skin Irritation:</td>
<td>Not an irritant.</td>
</tr>
<tr>
<td>Human Patch:</td>
<td>Non-sensitizing. May cause irritation and dermatitis with prolonged or repeated contact.</td>
</tr>
<tr>
<td>Mutagenicity:</td>
<td>No mutagenicity detected in Ames, Pol A+/A-, WP&lt;sub&gt;2&lt;/sub&gt;, Mouse Lymphoma, In Vitro Sister Chromatid Exchange, Dominant Lethal and Micronucleus Assays.</td>
</tr>
<tr>
<td>Carcinogens:</td>
<td>None present</td>
</tr>
<tr>
<td>Aquatic LC&lt;sub&gt;50&lt;/sub&gt;:</td>
<td>None available</td>
</tr>
</tbody>
</table>

Additional Information:

- Isoparaffinic hydrocarbon solvent has a low order of acute oral and dermal toxicity, but minute amounts aspirated into the lungs during ingestion or vomiting may cause mild to severe pulmonary injury, including fatality.
- Rat inhalation at 900 ppm not fetotoxic or teratogenic.

1 The product does not contain a toxic chemical(s) subject to the reporting requirements of Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40CFR Part 372. Its ingredients do not appear on the California Proposition 65 List. 2 All ingredients contained within this product are listed on the Canadian Domestic Substances List (DSL). 3 These ingredients are claimed as a trade secret by a Xerox supplier. They are registered in the following states under the respective trade secret numbers: Massachusetts, 99-125-008; New Jersey, 800814-5000, 800814-5007; and New York, 213. They are not considered Hazardous as defined by WHMIS and a Trade Secret Exemption is not required for Canada. ^ XEL—Xerox Exposure Limit.

N.A. - Not Applicable  N.E. -None Established  N.D. -Not Determined

Section IV - Physical Data

Appearance/Odor: Cyan liquid /slight odor
Boiling Point: 160 -180 °C
Solubility in Water: Immiscible
Evaporation Rate: 0.3, (n-Butylacetate = 1)
Vapor Density (Air=1): 5.0
Volatile: N.A. % (Wt.) ~100% (Vol.)

Softening Range:
Melting Point:
Specific Gravity (H₂O=1):
Vapor Pressure @20°C (mm Hg):
pH:
Volatile Organics:

Section V - Fire and Explosion Data

Flash Point (Method Used): 102°-107°F (39-42°C) T.C.C.
Flammable Limits
NFPA 704:
Extinguishing Media:
Special Fire Fighting Procedures: Use air-supplied breathing equipment for enclosed areas. Cool exposed containers with water spray. Avoid breathing vapor or fumes.
Fire and Explosion Hazards:

Section VI - Reactivity Data

Stability: Stable
Hazardous Polymerization: Will Not Occur
Hazardous Decomposition Products: Fumes, smoke and carbon monoxide in the case of incomplete combustion.
Incompatibility (Materials to Avoid): Strong oxidants such as liquid chlorine, concentrated oxygen, sodium/calcium hypochlorite.

Section VII - Special Protection Information

Respiratory Protection: None when used as intended with Xerox Engineering Systems products.
Eye Protection: None when used as intended with Xerox Engineering Systems products.
Protective Gloves: Neoprene or nitrile gloves for prolonged or repeated skin contact.
Other: None when used as intended with Xerox Engineering Systems products.

Section VIII - Special Precautions

Handling and Storage: Keep container closed. Avoid handling near heat, strong light, sparks, oxygen flames, strong oxidants.
Conditions to Avoid: Avoid breathing vapors. Avoid prolonged or repeated skin contact.

Section IX - Spill, Leak, and Disposal Procedures

For Spills or Leakage: Remove ignition sources. Recover free liquid using an absorbent material (vermiculite, fire retardant, sawdust, etc.).
Waste Disposal Method: The waste toner may be classified as an ignitable hazardous waste under federal and/or state regulations and should be disposed at an approved disposal site or facility in accordance with federal, state, and local regulations.

Section X - Transportation Information

### Proper Shipping Name
- **D.O.T.**: Combustible liquid, n.o.s. (Isoparaffinic hydrocarbon mixture)
- **L.A.T.A.**: Flammable liquid, n.o.s. (Isoparaffinic hydrocarbon mixture)
- **L.M.O.**: Flammable liquid, n.o.s. (Isoparaffinic hydrocarbon mixture)

### Hazard Class
- **Combustible liquid**

### ID #
- **D.O.T.**: NA 1993
- **L.A.T.A.**: 3
- **L.M.O.**: 3

### Packing Group
- **III**

### Exceptions may apply
- Reclassification: CFR 49, 173.120 (b) (2)* and 173.150 (f) (2)
- Y309.
- Y309.

**Note:** This product has been reclassified as a combustible liquid under DOT when shipped domestically by land only. As a combustible liquid, this product is not regulated by DOT when shipped in non-bulk quantities of less than 119 gallons and meet the packaging requirements of CFR 49, 173.203
This product is exempt from the Transportation of Dangerous Goods (section 2.23.2(1), when transported in containers less than 454 liters and not by air.
