Section I - Product Identification

Trade Names/Synonyms: 1035/2830 Red Developer Part No.: 5R128

Chemical Name: None

### Ingredients

#### Carrier (>95%):
- Ni-Zn ferrite powder $^1$
- Acrylate/styrene polymer (<5%)

#### Toner (<5%):
- Styrene/acrylate polymer (60-65%)
- Acrylic resin (20-25%)
- Red pigment; Barium salt (<10%) $^1$

CAS No.

- 12645-50-0
- 25214-28-2
- 25213-39-2
- 26299-47-8
- 7585-41-3

Section II - Emergency and First Aid

**Eyes:**
Flush with water.

**Skin:**
Wash with soap and water.

**Inhalation:**
Remove from exposure.

**Ingestion:**
Dilute stomach content with several glasses of water.

**Primary Route of Entry:** Inhalation

**Symptoms of Overexposure:** Minimal respiratory tract irritation may occur as with exposure to large amounts of any non-toxic dust.

**Medical Conditions Generally Aggravated by Exposure:**
None when used as described by product literature.

**Additional Information:** See Sections V and VII.

Section III - Toxicology and Health Information

*This material has been evaluated by Xerox Corporation.*

**Oral LD$_{50}$:** >5 g/kg (rats) practically non-toxic.  
**Dermal LD$_{50}$:** >5 g/kg (rabbits) practically non-toxic.  
**Inhalation LC$_{50}$:** >5 mg/l (rats, 4 hr exposure)practically non-toxic.  
>20 mg/l (calculated 1 hr exposure) non-poisonous,  
DOT: $^2$

**Eye Irritation:** Not an irritant

**Skin Sensitization:** Not a sensitizer.

**Human Patch:** Non-irritating, non-sensitizing

**Mutagenicity:** No mutagenicity detected in Ames, and Micronucleus Assays.

**Carcinogens:** Nickel (bound within ferrite crystal structure)

**Aquatic LC$_{50}$:** >500 mg/l (fathead minnows) non-toxic.

**Additional Information:** The information noted above is toxicity data for toner.  
In a Xerox sponsored chronic inhalation study in rats using a special test toner, there were no lung changes at all in the lowest exposure level (1mg/m$^3$), the most relevant level to potential human exposures. A very slight degree of fibrosis was noted in 25% of the animals at the middle exposure level (4 mg/m$^3$) while a slight degree of fibrosis was observed at the highest exposure level (16 mg/m$^3$) in all animals. These findings are attributed to "lung overloading," a generic response to excessive amounts of any dust retained in the lungs for a prolonged interval. The special test toner was ten times more respirable than commercially available Xerox toner to comply with EPA testing protocol and would not function properly in Xerox equipment.

$^1$This product contains a toxic chemical(s) subject to the reporting requirements of Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40CFR Part 372.  
$^2$Based on testing similar xerographic toner materials.  
$^3$XEL-Xerox Exposure Limit

N.A. - Not Applicable  N.E. - None Established  N.D. - Not Determined  600E57870
Section IV - Physical Data

Appearance/Odor: Red granular / faint odor
Boiling Point: N.A.
Solubility in Water: N.A.
Evaporation Rate: N.A.
Vapor Density (Air=1): N.A.
Volatile N.A. % (Wgt)  N.A. % (Vol.)

Section V - Fire and Explosion Data

Flash Point (Method Used): N.A.
Extinguishing Media: Water, foam, dry chemical.
Special Fire Fighting Procedures: Avoid inhalation of smoke. Wear protective clothing and self-contained breathing apparatus.
Fire and Explosion Hazards: None

Section VI - Reactivity Data

Stability: Stable
Hazardous Polymerization: Will Not Occur
Hazardous Decomposition Products: Products of combustion may be toxic. Avoid breathing smoke.
Incompatibility (Materials to Avoid): None

Section VII - Special Protection Information

Respiratory Protection: None required when used as intended.
Eye Protection: None required when used as intended.
Protective Gloves: None required when used as intended.
Other: For use other than normal customer - operating procedures (such as in bulk toner processing facilities), goggles and respirators may be required. For more information, contact Xerox.

Section VIII - Special Precautions

Handling and Storage: None
Conditions to Avoid: Avoid prolonged inhalation of excessive dust.

Section IX - Spill, Leak, and Disposal Procedures

For Spills or Leakage: If spilled, sweep up or vacuum.
Waste Disposal Method: When disposed, this material is not a hazardous waste according to Federal Regulation 40 CFR 261. However, State and Local requirements may be more restrictive. Therefore, consultation with the appropriate State and Local waste disposal authorities is advised.

Section X - Transportation Information

DOT Proper Shipping Name: Not Regulated
Hazard Classification: N.A.
ID Number: N.A. 600E57870
