Section I - Product Identification

Trade Names/Synonyms: Aerosol Paint
Chemical Name: None
WHMIS Class: B5, D1B, D2A, D2B

Ingredients

Base Components:
- Ethyl acetate (25-35%) 141-78-6
- Propellant A-70 propane / Isobutane (20-30%) 68476-85-7
- Dichloromethane (15-20%) 75-09-2
- Vinyl toluene co-polymer (10-15%) 9017-21-4
- V.M. & P Naptha (5-10%) 64742-89-8

Colorants:
- Dark olive: Iron oxide (1-3%) 1332-37-2
- Titanium dioxide (1-3%) 13463-67-7
- Vivid Yellow Green: Pigment Yellow (1-3%) 5979-28-2
- Blue: Phthalocyanine blue (1-3%) 147-14-8
- Titanium dioxide (1-3%) 13463-67-7
- Red Orange: Permanent orange 34 (1-3%) 15793-73-4
- Iron oxide (1-3%) 1332-37-2
- Dark Yellow: Iron oxide (1-3%) 1332-37-2
- Titanium dioxide (1-3%) 13463-67-7
- All other colors: Titanium dioxide (1-6%) 13463-67-7

Section II - Emergency and First Aid

Eyes: Flush immediately with large amounts of water for at least 15 minutes.
Skin: Remove contaminated clothing. Wash skin thoroughly with soap and water.
Inhalation: Remove from exposure. Observe for any difficulty in breathing.
Ingestion: Dilute stomach contents with several glasses of water. Do NOT induce vomiting.

Primary Route of Entry: Inhalation
Symptoms of Overexposure: Inhalation or ingestion poses maximal risk of severe respiratory distress by aspiration, as well as central nervous system depression. Prolonged or repeated skin contact may cause dermatitis.
Medical Conditions Generally Aggravated by Exposure: None when used as described by product literature.
Additional Information: Call physician. See Section VII.

Section III - Toxicology and Health Information

This material has been evaluated by Xerox Corporation.

Oral LD₅₀: Non-toxic

Dermal LD₅₀: N.D.

Inhalation LC₅₀: Non-toxic

Eye Irritation: Irritant

Skin Sensitization: See Additional Information

Skin Irritation: Irritant

Human Patch: N.D.

Mutagenicity: N.A.

Carcinogens: Dichloromethane is a substance which may reasonably be anticipated as a carcinogen according to NTP.

Aquatic LC₅₀: N.A.

Additional Information: Prolonged or repeated skin contact may cause dermatitis.

This product contains a toxic chemical(s) subject to the reporting requirements of Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40CFR Part 372. Based on toxicity data for components. XEL-Xerox Exposure Limit

600E66180
Section IV - Physical Data

Appearance/Odor: paint/methylene chloride
Boiling Point: 130°F-250°F (54-121°C)
Solubility in Water: N.D.
Vapor Pressure: N.D.
Vapor Density: N.D.
Specific Gravity: N.D.
Evaporation Rate: N.D.
Volatile N.D. % (Wgt) 88%(Vol.)

Section V - Fire and Explosion Data

Flash Point (Method Used): -138°F (-94°C) T.C.C. for propellant, ~4°F (-16°C) T.O.C. for paint.
Extinguishing Media: Carbon dioxide, dry chemical, foam.
special Fire Fighting Procedures: Water spray may be ineffective. Water may be used to cool closed containers to prevent pressure build-up. If water is used, fog nozzles are preferable.
Fire and Explosion Hazards: Closed containers may explode when exposed to temperatures above 130°F (54°C).

Section VI - Reactivity Data

Stability: Stable
Hazardous Decomposition Products: Decomposition fumes may contain oxides of carbon, irritants and acid odors.
Incompatibility (Materials to Avoid): Strong oxidizers

Section VII - Special Protection Information

Respiratory Protection: In confined area, use approved respirator with filter designed to remove small particulate and organic vapors.
Eye Protection: Safety glasses with side shields or goggles required.
Protective Gloves: Neoprene or rubber gloves recommended.
Other: Use adequate ventilation. Discard contaminated shoes. Remove and wash contaminated clothing before reuse. Use protective cream where skin contact is likely.

Section VIII - Special Precautions

Handling and Storage: Keep containers tightly closed. Isolate from heat, electrical equipment. Do not store above 120°F (49°C). Do not puncture. Use adequate ventilation or approved respirators in confined areas.
Conditions to Avoid: Isolate from sparks, open flames, and temperatures above 130°F (54°C).

Section IX - Spill, Leak, and Disposal Procedures

For Spills or Leakage: Remove all sources of ignition. Ventilate area. Absorb with inert absorbent, non-sparking tools. Keep spills out of sewers. Floor may be slippery.
Waste Disposal Method: Do NOT incinerate. Send solvent to a licensed waste disposal company or reclaim facility in compliance with local, state, and federal regulations.
