Flash Point (Method Used): 142°F T.C.C.
Flammable Limits: LEL: 1.1 UEL: 15.8
NFPA 704: Health - 1, Fire - 2, Reactivity - 0
Extinguishing Media: CO₂, Dry chemical, Foam, or Alcohol foam

Special Fire Fighting Procedures: Full protective equipment including self-contained breathing apparatus should be used. Water spray may be ineffective. If water is used, fog nozzles are preferable. Water may be used to cool closed containers to prevent pressure build-up and possible autoignition or explosion when exposed to extreme heat.

Fire and Explosion Hazards: Handle as flammable liquid. Vapors form an explosive mixture in air between the upper and lower explosive limits which can be ignited by many sources such as pilot lights, open flames, electrical motors and switches.

Section VI - Reactivity Data

Stability: Stable
Hazardous Polymerization: Will Not Occur
Hazardous Decomposition Products: By Fire: Carbon dioxide, carbon monoxide
Incompatibility (Materials to Avoid): None known

Section VII - Special Protection Information

Respiratory Protection: Use ventilation as required to control vapor, dust, and fumes. Avoid prolonged or repeated breathing of vapors. If exposure exceeds TLV, use a NIOSH approved respirator to prevent overexposure.
Eye Protection: Avoid contact with eyes. Wear goggles if there is a likelihood of contact with the eyes.
Protective Gloves: Protective gloves are required for prolonged or repeated contact. Wear resistant gloves such as natural rubber, neoprene, buna N, or nitrile.
Other: Intentional misuse by deliberately concentrating and inhaling the contents can be harmful or fatal.

Section VIII - Special Precautions

Handling and Storage: Use in cool, well-ventilated areas. Keep containers closed when not in use. Keep away from excessive heat and open flame.
Conditions to Avoid: Avoid heat, sparks, and open flames.

Section IX - Spill, Leak, and Disposal Procedures

For Spills or Leakage: Eliminate ignition sources, provide good ventilation, dike spill area and add absorbent earth or sawdust to spilled liquid. Thoroughly wet with water and mix.

Waste Disposal Method: Waste from this product is not hazardous as defined under the Resource conservation and Recovery Act (RCRA 40 CFR 261. Dispose of in accordance with Federal, State/Provincial, and Local regulations.
