Material Safety Data Sheet

Manufacturer: Xerox Corporation
Telephone Number(s): Safety Information: (800) 828-6571
Issue Date: 9/16/04
MSDS No.: P-7002
Revision Date: 02/03/10
Issue Date: 9/16/04
Health Emergency: (585) 422-2177
Revision Date: 02/03/10
Oakville, Ontario
Transportation Emergency (Chemtrec): (800) 424-9300
CANADA L6J 5A8

Section 1: Product Identification
Trade Name/Synonyms: DocuTech 128/155/180 HighLight Color Dry Ink

WHMIS Status: This is not a WHMIS controlled product

Section 2: Emergency and First Aid
Primary Route of Entry:
Inhalation
Eyes: Minimal respiratory tract irritation may occur with exposure to large amounts of any non-toxic dust.
Flush with water
Skin: None when used as described by product literature.
Wash with soap and water
Inhalation: Remove from exposure.

Section 3: Toxicology and Health Information

The toxicity data noted below is based on the test results of similar reprographic materials:

<table>
<thead>
<tr>
<th>Toxicity Data</th>
<th>Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>Oral LD₅₀</td>
<td>&gt;5 g/kg (rats) practically non-toxic.</td>
</tr>
<tr>
<td>Dermal LD₅₀</td>
<td>&gt;5 g/kg (rabbits) practically non-toxic.</td>
</tr>
<tr>
<td>Inhalation LC₅₀</td>
<td>&gt;5 mg/l (rats, 4hr exposure) practically non-toxic.</td>
</tr>
<tr>
<td></td>
<td>&gt;20 mg/l (calculated 1 hr exposure) non-poisonous, DOT</td>
</tr>
<tr>
<td>Eye Irritation</td>
<td>Not an irritant</td>
</tr>
<tr>
<td>Skin Sensitization</td>
<td>Not a sensitizer</td>
</tr>
<tr>
<td>Skin Irritation</td>
<td>Not an irritant</td>
</tr>
<tr>
<td>Human Patch</td>
<td>Non-irritating, non-sensitizing</td>
</tr>
<tr>
<td>Mutagenicity</td>
<td>No mutagenicity detected in Ames assay.</td>
</tr>
<tr>
<td>Carcinogens</td>
<td>None present</td>
</tr>
<tr>
<td>Aquatic LC₅₀</td>
<td>&gt;1000 mg/l (fathead minnows) non-toxic.</td>
</tr>
</tbody>
</table>

Additional Information: The results obtained from a Xerox sponsored Chronic Toner Inhalation Study demonstrated no lung change in rats for the lowest (1mg/m³) exposure level (the level most relevant to potential human exposure). A very slight degree of fibrosis was noted in 25% of animals at the middle (4mg/m³) exposure level, while a slight degree of fibrosis was noted in all the animals at the highest (16 mg/m³) exposure level. These findings are attributed to “lung overloading”, a generic response to excessive amounts of any dust retained in the lungs for prolonged period. This study was conducted using a special test toner to comply with EPA testing protocol. The test toner was ten times more respirable than commercially available Xerox toner, and would not be functionally suitable for Xerox equipment.

1 XEL-Xerox Exposure Limit

04E14540
Section 4 – Physical Data

Appearance/Odor: Fine black, magenta, yellow, cyan powder/ faint odor
Softening Range: 120°F - 140°F
Boiling Point: Not applicable
Melting Point: N.D.
Solubility in Water: Negligible
Specific Gravity (H2O=1): ~1
Evaporation Rate: Not applicable
Vapor Pressure (mm Hg): Not applicable
Vapor Density (Air=1): Not applicable
pH: Not applicable
Volatile: Not applicable % (Wt.) Not applicable % (Vol.)

Section 5 – Fire and Explosion Data

Flash Point (Method Used): Not applicable
LEL: Not applicable, UEL: Not applicable
Flammable Limits: Consumer Use and Storage (“Cartridge”, “Bottle”) – Health -0, Fire-1, Reactivity-0
NFPA 704: Manufacturing Use and Storage (“Bulk Containers”) – Health -0, Fire-3, Reactivity-0
Extinguishing Media: Avoid direct stream – gently apply water mist, water fog, or foam
Special Fire Fighting Procedures: Avoid inhalation of smoke. Wear protective clothing and self-contained breathing apparatus.

Section 6 – Reactivity Data

Stability: Stable
Hazardous Polymerization: Will Not Occur
Hazardous Decomposition Products: Products of combustion may be toxic. Avoid breathing smoke.
Incompatibility (Materials to Avoid): None known

Section 7 – Special Protection Information

Respiratory Protection: None required when used as intended in Xerox equipment.
Eye Protection: None required when used as intended in Xerox equipment.
Protective Gloves: None required when used as intended in Xerox equipment.
Other: For use other than normal customer – operating procedures (such as in bulk toner processing facilities), goggles and respirators may be required. For more information, contact Xerox.

Section 8 – Special Precautions

Handling and Storage: Keep container tightly closed
Conditions to Avoid: Avoid prolonged inhalation of excessive dust.

Section 9 – Spill, Leak, and Disposal Procedures

For Spills or Leakage: Sweep up or vacuum spilled toner and carefully transfer into sealable waster container. Sweep slowly to minimize generation of dust during clean-up. If vacuum is used, the motor must be rated as dust tight. A conductive hose bonded to the machine should be used to reduce static buildup (See Section 5). Residue can be removed with soap and cold water. Garments may be washed or dry-cleaned, after removal of loose toner.

Waste Disposal Method: This material is not a hazardous waste according to Federal Regulation 40 CFR 261 when disposed. State and Local requirements may, however, be more restrictive. Consult with the appropriate State and Local waste disposal authorities for additional information. Incinerate only in a closed container.

Section 10 – Transportation Information

This product is not regulated as a hazardous material
