Case Study: Atlantic Shores Retirement Community

Groundbreaking wireless networking to support leading-edge health care technologies.

“We wanted to create a high-tech environment of social connectedness, exploration, preventative technologies, and safety. Ubiquitous access takes the fear and frustration out of the process, and instead offers the opportunity for curiosity to take over and expand the world.”

– Eden Jones, General Manager, Atlantic Shores

ABOUT ATLANTIC SHORES

Atlantic Shores Retirement Community is a 100-acre community that is home to over 600 residents.

The large resident-governed cooperative community encompasses multiple buildings and outdoor spaces, requiring strategic planning.

The Atlantic Shores leadership team was looking for a groundbreaking technology initiative that would fully integrate the community with a campus-wide network.

CASE STUDY SNAPSHOT

<table>
<thead>
<tr>
<th>The Challenge</th>
<th>The Solution</th>
<th>The Results</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Desire to enable campus-wide wireless connectivity to include resident buildings, the clubhouse, on-site medical and long-term care facilities, and external villas</td>
<td>• After completing a full assessment, Xerox IT Services proposed a strategic, phased approach, beginning with a fully-realized IT foundation to support the entire initiative</td>
<td>• High-quality technology infrastructure to support key company initiatives, including telemedicine and remote monitoring capabilities</td>
</tr>
<tr>
<td>• Maintain highest levels of network security to protect resident information</td>
<td>• During phase 1, Xerox IT Services installed hardware, including Wireless access points at core locations, to support the entire project</td>
<td>• Redundant disaster recovery/business continuity plan</td>
</tr>
<tr>
<td>• Maintain business continuity while upgrading IT network components</td>
<td>• Partnered with a local cabling company to install cabling</td>
<td>• HIPAA compliant network</td>
</tr>
</tbody>
</table>
