

# The SLRB of Bahrain achieves higher efficiency using Xerox® Technology

“With Xerox DocuShare, we saved a lot of time and our processes became more efficient, secure and easy to use. We were delighted with the service provided by Xerox”

– Mr. Ammar Al Khashram, Director of Technical Affairs, SLRB.

## ABOUT SLRB

Survey and Land Registration Bureau of Bahrain is the custodian of all properties in the Kingdom of Bahrain as well as the national mapping agency.

It holds land records containing property ownership information and transaction details in the form of registers and ledgers, dating back to the 1930s.

The Bureau chose Xerox as its digitization partner to accelerate the organization digital transformation for improved workflow automation and offer better service to their clients.

Xerox® DocuShare® Content Management Platform provided quick and secure access to information.

## CASE STUDY SNAPSHOT

### The Challenge

- Access to related information was time consuming, resulting in delays in providing service to both citizens and organizations.
- SLRB records' condition was deteriorating due to natural causes and continual use.
- Potential health hazards for users.

### The Solution

- Digitization of SLRB's records with accurate indexing following specific requirements.
- Use of the DocuShare® software allowed easy, smart and secure access to documents from anywhere.

### The Results

- Digitized records in a secure, central repository
- Easy and controlled access in a digital environment.
- Higher efficiency, faster decision making and minimized delays.
- Smart indexing for easy retrieval.
