Summary Table – Voluntary Product Accessibility Template® (VPAT®)

Criteria	Conformance Level	Remarks and explanations
Chapter 3: Functional Performance Criteria	Supports	The product is compliant with Chapter 3.
Chapter 4: Hardware	Not applicable	There is no hardware component in the product.
Chapter 5: Software	Supports	The product is compliant with Chapter 5.
Chapter 6: Support Documentation and Services	Supports	The centralization of documentation, training, and support services for most Xerox products allows us to achieve compliance across the corporation.

Software Version Evaluated: 16.0.1.0

Accessories Included in Evaluation: narrator (inbuilt in Windows) and headset

Evaluation Methods Used: testing based on general product knowledge and testing with assistive technologies

Chapter 3: Functional Performance Criteria (FPC)

Criteria	Conformance Level	Remarks and explanations
302.1 Without Vision	Supports	At least one mode of operation that does not require user vision is available
302.2 With Limited Vision	Supports	At least one mode of operation that enables users to make use of limited vision is available
302.3 Without Perception of Color	Supports	At least one mode of operation that does not require user perception of color is available
302.4 Without Hearing	Not applicable	No audible mode of operation is required for this product
302.5 With Limited Hearing	Not applicable	No audible mode of operation is required for this product
302.6 Without Speech	Not applicable	Speech is not required for this product
302.7 With Limited Manipulation	Not applicable	Fine motor control or simultaneous manual operations is not required for this product
302.8 With Limited Reach and Strength	Not applicable	Limited reach and limited strength is not required for this product
302.9 With limited Language, Cognitive, and Learning Abilities	Supports	The user interface of this product has a consistent presentation with clear labels, titles, and accessible names for controls.

Chapter 5 Software

Criteria	Conformance Level	Remarks and explanations
502 Interoperability with Assistive Technology		
502.2.1 User Control of Accessibility Features	Not applicable	The product software does not override or disable accessibility features of the host operating system or other software possessing features that have been developed and documented according to industry standards.
502.2.2 No Disruption of Accessibility Features	Supports	The product software does not override or disable accessibility features of the host operating system or other software possessing features that have been developed and documented according to industry standards.
502.3 Accessibility Services		
502.3.1 Object Information	Supports	The program code makes the appropriate user interface elements available to Assistive Technology.
502.3.2 Modification of Object Information	Supports	The program code makes the appropriate user interface elements available to Assistive Technology.
502.3.3 Row, Column, and Headers	Not applicable	No data tables are used.
502.3.4 Values	Supports	All commands that can be described textually can be executed from the keyboard.
502.3.5 Modification of Values	Supports	All commands that can be described textually can be executed from the keyboard.
502.3.6 Label Relationships	Supports	All commands that can be described textually can be executed from the keyboard.
502.3.7 Hierarchical Relationships	Supports	All commands that can be described textually can be executed from the keyboard.
502.3.8 Text	Supports	All textual information is provided through operating system functions.
502.3.9 Modification of Text.	Supports	All textual information is provided through operating system functions.
502.3.10 List of Actions	Supports	Applications allow assistive technology to programmatically execute available actions on objects.
502.3.11 Actions on Objects	Supports	Applications allow assistive technology to programmatically execute available actions on objects.
502.3.12 Focus Cursor	Supports	A well-defined, on-screen indication of the current focus is provided, and the focus is programmatically exposed so that Assistive Technology can track focus and focus changes.
502.3.13 Modification of Focus Cursor	Supports	A well-defined, on-screen indication of the current focus is provided, and the focus is programmatically exposed so that Assistive Technology can track focus and focus changes.
502.3.14 Event Notification	Supports	Notification of events relevant to user interactions, including but not limited to, changes in the component's state, value, name, description, or boundary are available through assistive technology.

Criteria	Conformance Level	Remarks and explanations
502.4 Platform Accessibility Features	Not applicable	This product is not platform software or software with platform features.
503 Applications		
503.2 User Preferences	Supports	The product software does not override user-selected contrast and color selections and other individual display attributes.
503.3 Alternative User Interfaces	Supports	The product software does not override user-selected contrast and color selections and other individual display attributes.
503.4 User Controls for Captions and Audio Description		
503.4.1 Caption Controls	Not applicable	The product does not use audio.
503.4.2 Audio Description Controls	Not applicable	The product does not use audio.
504 Authoring Tools		
504.2 Content Creation or Editing (if not authoring tool, enter “not applicable”)	Not applicable	The product is not an authoring tool.
504.2.1 Preservation of Information Provided for Accessibility in Format Conversion	Not applicable	The product is not an authoring tool.
504.2.2 PDF Export	Not applicable	The product is not an authoring tool.
504.3 Prompts	Not applicable	The product is not an authoring tool.
504.4 Templates	Not applicable	The product is not an authoring tool.

Chapter 6 Support Documentation and Services

Criteria	Conformance Level	Remarks and explanations
601.1 Scope		
602 Support Documentation		
602.2 Accessibility and Compatibility Features	Supports	XCA is provided to the customer with the user guide
602.3 Electronic Support Documentation	Supports	Website provides user guide
602.4 Alternate Formats for Non-Electronic Support Documentation	Supports	User guide is provided as an E-book to the customer
603 Support Services		
603.2 Information on Accessibility and Compatibility Features	Supports	XCA is provided to the customer with the user guide

Criteria	Conformance Level	Remarks and explanations
603.3 Accommodation of Communication Needs	Not applicable	Customer support service contact details are available in the user guide and also on website. Specific support for persons with disability is not provided

What is the Voluntary Product Accessibility Template (VPAT)?

The purpose of the Voluntary Product Accessibility Template is to assist Federal contracting officials in making preliminary assessments regarding the availability of commercial Electronic and Information Technology products and services with features that support accessibility.

The first table of the Template provides a summary view of the Section 508 Standards. The subsequent tables provide more detailed views of each subsection. There are three columns in each table. In the subsequent tables, the first column contains the numbered paragraphs of the subsections. The second column describes the supporting features of the product with regard to that paragraph. The third column contains any additional remarks and explanations regarding the product.

For additional information on these and other accessories, contact your Xerox sales representative or call 1-800-ASK-XEROX (1-800-275-9376).
