

Xerox Roadmap to Net Zero 2040

Energy Efficiency & Process Improvements

- Increase remote solve to reduce service miles
- Increase fleet fuel efficiency
- Real estate optimization
- Process and facilities energy reduction projects
- Incorporate internal carbon pricing into decisions

Circular Economy & Low Carbon Design

- Increase energy efficient products
- Increase post-consumer materials in products & expand take-back and remanufacturing
- Test and commercialize Cleantech innovations
- Engage suppliers for lower carbon supply chain

Carbon Compensation & Neutralization

- Zero-carbon electricity
- Power Purchase Agreements (Solar / Wind)
- Renewable Energy Credits
- Renewable natural gas
- CO2 capture, sequestration, and re-forestation

Emissions Reduction Activities and Milestones

Core Principles

Partnerships & Collaborations

We will work with our partners and clients to improve our business to be a catalyst for wider change.

Leadership & Resilience

Integrate low carbon focus into business processes corporate-wide

Innovation-driven

Xerox's innovation areas have potential to reduce the world's carbon footprint, among other benefits.
